Medicare STAR Ratings

Medicare STAR Ratings

What Are CMS Star Ratings?

- The Centers for Medicare & Medicaid Services (CMS) uses a five-star quality rating system to measure Medicare beneficiaries' experience with their health plans and the health care system. This rating system applies to Medicare Advantage plans that cover both health services and prescription drugs (MA-PD).
- The ratings are posted on the CMS consumer website, www.medicare.gov, to give beneficiaries help in choosing an MA or MA-PD plan offered in their area. The Star Rating program is designed to promote improvement in quality and recognize primary care providers for demonstrating an increase in performance measures over a defined period of time.

Medicare STAR Ratings

CMS's Star Rating Program is based on measures in five different domains:

1. Staying healthy: screenings, tests, and vaccines
2. Managing chronic (long-term) conditions
3. Member experience with the health plan
4. Member complaints, problems getting services, and improvement in the health plan's performance
5. Health plan customer service

How Can Providers Improve STAR Ratings?

- Continue to encourage patients to obtain preventive screenings annually or when recommended.
- Management of chronic conditions such as hypertension and diabetes, including medication adherence.
- Continue to talk to your patients and document interventions regarding topics such as fall prevention, bladder control, and the importance of physical activity and emotional health and wellbeing (HOS).
- Create office practices to identify noncompliant patients at the time of their appointment.
- Follow up with patients regarding their test results (CAHPS).

How Can Providers Improve STAR Ratings? – *cont.*

- Submit complete and correct encounters/claims with appropriate codes and properly document medical chart for all members, including availability of medical record for chart abstractions.
- Review the gap in care files listing members with open gaps which is available on our secure portal.
- Review medication and follow up with members within 14 days post hospitalization.
- Identify opportunities for you or your office to have an impact on your patient's health and well-being.
- Make appointments available to patients and reduce wait times (CAHPS).

Meaningful Use – Electronic Medical Records

Meaningful Use

- EHR/EMR allows healthcare professionals to provide patient information electronically instead of using paper records.
- Electronic Health Records/Electronic Medical Records (EHR/EMR) can provide many benefits, including:
 - Complete and accurate information
 - Better access to information
 - Patient empowerment

(Incentive programs may be available)

Advance Directives

Advance Medical Directives

An advance directive will assist the Primary Care Provider to understand the member's wishes about their health care in the event they become unable to make decisions on their own behalf. Examples include:

- Living Will
 - Health Care Power of Attorney
 - "Do Not Resuscitate" Orders
-
- Member's medical records must be documented to indicate whether an advance directive has been executed.
 - Providers must also educate staff on issues concerning advance directives and must maintain written policies that address the rights of members to make decisions about medical care.

Fraud, Waste and Abuse

Fraud, Waste and Abuse

Allwell follows the four parallel strategies of the Medicare and Medicaid programs to prevent, detect, report, and correct fraud, waste, and abuse:

- Preventing fraud through effective enrollment and education of physicians, providers, suppliers, and beneficiaries.
- Detection through data analytics and medical records review.
- Reporting any identified or investigated violations to the appropriate partners, including contractors, the NBI-MEDIC and federal and state law enforcement agencies, such as the Office of Inspector General (OIG), Federal Bureau of Investigation (FBI), Department of Justice (DOJ) and Medicaid Fraud Control Unit (MFCU).
- Correcting fraud, waste, or abuse by applying fair and firm enforcement policies, such as pre-payment review, retrospective review, and corrective action plan.

Fraud, Waste and Abuse

Allwell performs front and back end audits to ensure compliance with billing regulations. Most common errors include:

- Use of incorrect billing code
- Not following the service authorization
- Procedure code not being consistent with provided service
- Excessive use of units not authorized by the case manager
- Lending of insurance card

Benefits of stopping fraud, waste, and abuse:

- Improves patient care
- Helps save dollars and identify recoupments
- Decreases wasteful medical expenses

Fraud, Waste and Abuse

Allwell expects all its providers, contractors, and subcontractors to comply with applicable laws and regulations, including, but not limited to the following:

- Federal and State False Claims Act
- Qui Tam Provision (Whistleblower)
- Anti-Kickback Statute
- Physician Self-Referral Law (Stark Law)
- Health Insurance Portability and Accountability Act (HIPAA)
- Social Security Act (SSI)
- US Criminal Codes

Fraud, Waste and Abuse

Training Requirements:

- First-Tier, Downstream, and Related Entities (FDR), as well as delegated entities, will be required to complete training via the Medicare Learning Network (MLN) website.
- The trainings must be completed by each individual provider/practitioner within the group rather than one person representing the group collectively.
- The updated regulation requires all applicable entities (providers, practitioners, administrators) to complete the training within 90 days of contracting or becoming a delegated entity and annually thereafter.
- Once training is complete, each applicable entity will need to complete the certificate(s) of completion or attestation through the CMS MLN and provide a copy to the health plan.

Medicare Fraud, Waste and Abuse Reporting

Potential fraud, waste, or abuse reporting may be called to our anonymous and confidential hotline at 1-866-685-8664 or by contacting the Compliance Officer at 1-855-766-1497 or by email to ATC.Compliance@centene.com
