

MEDICAID PROVIDER MANUAL 2021

For more than 20 years, Centene Corporation® (Centene) has provided comprehensive managed care services to the Medicaid population across the United States. Centene provides Medicaid managed care services to members in South Carolina as Absolute Total Care. Centene and its wholly-owned health plans have a long and successful track record offering Medicaid managed care services. Absolute Total Care will serve our South Carolina members consistent with our core philosophy that quality healthcare is best delivered locally.

Absolute Total Care is a South Carolina licensed Health Maintenance Organization Managed Care Organization (MCO) contracted with the South Carolina Department of Health and Human Services (SCDHHS) to serve Medicaid and other government services to program members. Absolute Total Care has developed the expertise to work with Medicaid members to improve their health status and quality of life. Our number one priority is the promotion of healthy lifestyles through preventive healthcare. Absolute Total Care will accomplish this goal by partnering with primary care providers (PCPs) who manage the healthcare of Absolute Total Care members.

Absolute Total Care's goals are as follows:

- Ensure access to primary and preventive care services.
- Ensure care is delivered in the best setting to achieve an optimal outcome.
- Improve access to all necessary healthcare services.
- Encourage quality, continuity, and appropriateness of medical care.
- Provide medical coverage in a cost-effective manner.

All of our programs, policies, and procedures are designed with these goals in mind. Absolute Total Care provides all medically necessary care required by the SCDHHS MCO Policy and Procedure Manual. We hope that you will assist Absolute Total Care in reaching these goals, and we look forward to your active participation.

The purpose of this Provider Manual is to assist Absolute Total Care providers in delivering medical care to Absolute Total Care members. This manual serves as a guide pertaining to Absolute Total Care's policies and procedures when rendering medical services to our members. This is a supplement to your agreement with Absolute Total Care and includes information on billing, quality, credentialing, and compliance requirements set forth by any statutory, regulatory, contractual, and/or accreditation entities. Any revisions to this manual that result in a policy change will be implemented 30 days after notice is provided by mail, fax, electronic mail, or provider post bulletins. Up-to-date information may be found by visiting our website at absolutetotalcare.com.

Availability

Availability is defined as the extent to which Absolute Total Care contracts with the appropriate type and number of practitioners and providers necessary to meet the needs of its members within defined geographical areas. Absolute Total Care has implemented several processes to monitor its network for sufficient numbers and types of practitioners who provide primary care, behavioral healthcare, and specialty care.

PCP availability is measured annually by Absolute Total Care. Member data regarding satisfaction with physician availability is collected annually by the Member Services Department. Results are reported and reviewed by the Quality Improvement Committee (QIC). The QIC, or designated subcommittee, will analyze the data and make recommendations to address deficiencies in the number, distribution, or type of practitioners available to the membership.

Accessibility

Accessibility is defined as the extent to which a member can obtain available services as needed. Such services refer to both telephone access and ease of scheduling an appointment, if applicable. Absolute Total Care monitors access to services by performing access audits, tracking applicable results of the Healthcare Effectiveness Data and Information Set (HEDIS)/Consumer Assessment of Health Plans Survey (CAHPS), analyzing member complaints regarding access, and reviewing telephone access.

24-Hour Access

You are responsible to maintain sufficient facilities and personnel to provide covered physician services and ensure services are available as needed 24 hours a day, 365 days a year. An after-hours telephone number must be provided to all members. The after-hours number must connect the member to an answering service, a call center system, a recording that directs the caller to another number to reach you or your authorized medical practitioner, or a system that automatically transfers the call to another telephone line that is answered by a person who will contact you.

A hospital may be used for the 24-hour telephone coverage requirement if the 24-hour access is **not** answered by the emergency room (ER) staff. You will establish a communication and reporting system with the hospital and the PCP must review the results of all hospital-authorized services.

Absolute Total Care will monitor physicians' offices through scheduled and unscheduled visits and call coverage verification.

Appointment Access Standards

The following schedule should be followed regarding appointment availability for primary care and specialists:

Appointment Type	Access Standard
Routine visits with a PCP	Within four to six weeks
Routine visits with a unique specialist	Within four to 12 weeks
Urgent or non-emergency visits	Within 48 hours
Emergent or emergency visits	Immediately upon presentation at a service delivery site
24-hour PCP coverage	24 hours a day, seven days a week, or triage system approved by Absolute Total Care
Office wait time for scheduled routine appointments	Not to exceed 45 minutes
Walk-in appointments/non-urgent	Should be seen if possible or scheduled for an appointment
Walk-in appointments/urgent	Should be seen within 48 hours

Absolute Total Care will monitor appointment and after-hours availability on an ongoing basis through its Quality Improvement (QI) Program.

Referrals

A PCP referral is not required for a member to see an Absolute Total Care network specialist. However, Absolute Total Care recommends that members always check with their PCP before going to see a specialist. PCPs should refer members to the appropriate specialist for care.

Member Panel Capacity

All PCPs reserve the right to state the number of members they are willing to accept into their panel. Absolute Total Care **does not** guarantee that any provider will receive a set number of members. If a PCP wants to make a change to their panel capacity, the PCP must contact Provider Services at 1-866-433-6041. A PCP shall not refuse to treat members as long as the physician has an open panel status with Absolute Total Care.

PCPs must notify Absolute Total Care at least 45 days in advance of an inability to accept additional Medicaid-covered individuals under Absolute Total Care agreements. Absolute Total Care prohibits all providers from intentionally segregating members from fair treatment and any covered services provided to other non-Medicaid members.

If a PCP wishes to open or close a panel, the request must be in writing, signed on the provider's letterhead, and mailed to:

Absolute Total Care
ATTN: Provider Data Management
1441 Main Street, Suite 900
Columbia, SC 29201

Changing Primary Care Providers (PCPs)

Primary Care Provider (PCP) Transfers

In order to maintain continuity of care, Absolute Total Care encourages members to build collaborative relationships with their PCP. Members may request to change their PCP at any time by calling Member Services at 1-866-433-6041, by completing the PCP Change Request Form on our website at absolutetotalcare.com or in the Secure Member Portal, or by mailing in the completed PCP Change Form located in the Member Benefits and Forms Booklet in their New Member Welcome Packet. PCP change requests will generally be processed on the same business day or by the next business day. Members will receive an updated ID card within 14 days.

Contract Termination

Refer to your Absolute Total Care contract for specific information about terminating from Absolute Total Care's network of providers. The request will be reviewed based on the termination section in your contract agreement. All requests for termination must be in writing and signed on the provider's letterhead and addressed to:

Absolute Total Care
ATTN: VP, Network Development/Contracting/Provider Services
1441 Main Street, Suite 900
Columbia, SC 29201

Advance Directives

Absolute Total Care is committed to a member's awareness of advance directives and their rights to execute them. Absolute Total Care is equally committed to ensuring that its PCPs and staff understand and comply with their member responsibilities under federal and state law regarding advance directives.

PCPs delivering care to Absolute Total Care members must ensure **adult** members, who are 18 years of age and older, receive information on advance directives and are informed of their right to execute an advance directive. PCPs **must** document such information in the permanent medical record.

Absolute Total Care recommends to its PCPs that:

- At the first point of contact with the member, the PCP's office should ask if the member has executed an advance directive and the member's response should be documented in the medical record.
- For those members with an executed advance directive during the first point of contact, the PCP's office should request a copy of the advance directive and document the request and delivery in the member's medical record.
- An advance directive should be included as a part of the member's medical record, including mental health directives.
- If an advance directive exists, the physician should discuss potential medical emergencies with the member and/or designated family member/significant other (if named in the advance directive and if available) and with the referring physician (if applicable). Discussion should be documented in the medical record.
- If an advance directive has not been executed, the first point of contact within the office should ask the member if they desire more information about advance directives.
- If the member requests further information, member advance directive education and information should be provided.

Member Services and MemberConnections® representatives will assist members with questions regarding advance directives; **however, no employee of Absolute Total Care may serve as witness to an advance directive or as a member's designated agent or representative.**

You may obtain a copy of an advance directive online at <https://www.nhpco.org/wp-content/uploads/SouthCarolina.pdf>.

Absolute Total Care's QI Department will monitor compliance with this provision during a medical record review. If you have any questions regarding advance directives, contact Provider Services at 1-866-433-6041, or visit our website at absolutetotalcare.com.

Provider Assistance With Public Health Services

Absolute Total Care is required to coordinate with public health entities regarding the provision of public health services. Providers must assist Absolute Total Care in these efforts by:

- Complying with public health reporting requirements regarding communicable diseases and/or diseases which are preventable by immunization as defined by state law.
- Assisting in the notification or referral of any communicable disease outbreaks involving members to the local public health entity, as defined by state law.
- Referring to the local public health entity for tuberculosis contact investigation, evaluation, and the preventive treatment of persons with whom the member has come into contact.
- Referring members to the local public health entity for STD/HIV contact investigation, evaluation, and preventive treatment of persons whom the member has come into contact.
- Referring members for Women, Infant, and Children (WIC) services and information sharing as appropriate.
- Assisting in the coordination and follow-up of suspected or confirmed cases of childhood lead exposure.
- Assisting in the collection and verification of race/ethnicity and primary language data.

Additional Reporting Requirements

Absolute Total Care, in accordance with its contract with SCDHHS, must report the existence of certain information regarding its membership. For example, if a member is involved in an accident or becomes injured, this information should be shared with Absolute Total Care. This includes any incidents that occur prior to a member's coverage with Absolute Total Care. To report this type of information, please call Member Services at 1-866-433-6041. Please be prepared to supply as many details as possible including the date and cause of the accident, the injuries sustained by the member, and whether or not any legal proceedings have been initiated. In addition, you must immediately report the death of an Absolute Total Care member.

Cultural Competency Overview

Cultural competency within Absolute Total Care's network is defined as, **"A set of interpersonal skills that allow individuals to increase their understanding, appreciation; acceptance and respect for cultural differences; similarities within, among, and between groups; and the sensitivity to know how these differences influence relationships with members."**

Absolute Total Care is committed to developing, strengthening, and sustaining healthy PCP/member relationships. Members are entitled to dignified, appropriate, and quality care. When healthcare services are delivered without regard for cultural differences, members are at risk for sub-optimal care. Members may be unable or unwilling to communicate their healthcare needs in an insensitive environment, reducing effectiveness of the entire healthcare process.

Absolute Total Care, as part of the credentialing process, will evaluate the cultural competency level of its PCPs and provide access to training and toolkits to assist PCPs in developing culturally competent and culturally proficient practices.

Network providers must ensure that:

- Members understand that they have access to medical interpreters, signers, and teletypewriter (TTY) services to facilitate communication without cost to the member.
- Care is provided with consideration of the members' race/ethnicity and language and its impact/influence on the members' health or illness.

- Office staff that routinely comes in contact with members have access to and participate in cultural competency training and development.
- Office staff responsible for data collection make reasonable attempts to collect race and language specific member information. Staff also must explain race/ethnicity categories to a member so that the member is able to identify the race/ethnicity of themselves and/or their children.
- Treatment plans are developed and clinical guidelines are followed with consideration of the members' race, country of origin, native language, social class, religion, mental or physical abilities, heritage, acculturation, age, gender, sexual orientation, and other characteristics that may result in a different perspective or decision-making process.
- Office sites have posted and printed materials in English, Spanish, and all other prevalent non- English languages if required by SCDHHS.

Absolute Total Care is committed to helping providers develop a culturally competent practice. For information on Absolute Total Care's Cultural Competency Plan, please visit our website at absolutetotalcare.com. You can also request a hard copy by calling Provider Services at 1-866-433-6041.

Preparing Cultural Competency Development

The road to developing a culturally competent practice begins with the recognition and acceptance of the value of meeting the needs of your patients. Absolute Total Care is committed to helping you reach this goal. Take into consideration the following as you provide care to Absolute Total Care's membership:

- What are your own cultural values and identity?
- How do or can cultural differences impact your relationship with your patients?
- How much do you know about your patients' cultures and languages?
- Does your understanding of culture take into consideration values, communication styles, spirituality, language ability, literacy, and family definitions?
- Do you embrace differences as allies in your patients' healing process?

Medical Records

Absolute Total Care providers must keep accurate and complete medical records. Such records will enable you to render the highest quality healthcare service to members. They will also enable Absolute Total Care to review the quality and appropriateness of the services rendered. To ensure the member's privacy, medical records should be kept in a secure location. Absolute Total Care requires you to maintain all records for members for at least 10 years for adult patients and at least 13 years for minors. See the Member Rights section of this manual for policies on member access to medical records.

Required Information

Medical records means the complete, comprehensive member records including, but not limited to, X-rays, laboratory tests, results, examinations, and notes, accessible at the site of the member's participating provider, that document all medical services received by the member, including inpatient, ambulatory, ancillary, and emergency care, prepared in accordance with all applicable SCDHHS rules and regulations and signed by the medical professional rendering the services.

All medical records, at a minimum, must contain the following items:

- Patient name, identification number, age, date of birth, sex, places of residence and employment, and responsible party (member, parent, or guardian).
- Services provided through the MCO, date of service, service site, and name of service provider.
- Medical history, diagnoses, prescribed treatment and/or therapy, and drug(s) administered or dispensed.
- The medical record shall commence on the date of the first patient examination made through, or by the MCO.
- Referrals and results of specialist referrals.
- Documentation of emergency and/or after-hours encounters and follow up.
- Signed and dated consent forms.
- For pediatric records (under 19 years of age) record of immunization status.
- Documentation of advance directives (for pediatric records, if completed) and executed advance directive maintained in medical record.

Each visit must include the following items:

- Date;
- Purpose of visit;
- Diagnosis or medical impression;
- Objective finding;
- Assessment of patient's findings;
- Plan of treatment, diagnostic tests, therapies, and other prescribed regimens;
- Medications prescribed;
- Health education provided;
- Signature and title or initials of the provider rendering the service. If more than one person documents in the medical record, there must be a record on file as to what signature is represented by which initials;
- Medication allergies; and
- Legible and organized documentation.

Medical Records Release

All member medical records shall be confidential and shall not be released without the written authorization of the member or member's legal guardian or representative. When the release of medical records is appropriate, the extent of that release should be based upon medical necessity or on a need-to-know basis.

Written authorization is required for the transmission of the medical record information of a current or former Absolute Total Care member to any provider rendering services to an Absolute Total Care member.

Medical Records Transfer for New Members

You are required to document in the member's medical record attempts to obtain historical medical records for all newly assigned Absolute Total Care members. If the member or member's legal guardian is unable to remember where they obtained medical care, or they are unable to provide addresses of the previous providers, then this should also be noted in the medical record.

Medical Records Audits

Medical records may be audited at the request of Absolute Total Care to determine compliance with Absolute Total Care's standards for documentation. Medical records may also be audited to validate coordination of care and services provided to members, including over/under-utilization of specialists and to ensure providers are following National and State Coding Guidelines (i.e., National Correct Coding Initiatives [NCCI], Centers for Medicare & Medicaid Services [CMS], SCDHHS); as well as the outcome of such services may be assessed during a medical record audit.

Medical Necessity

Medically necessary services are those services utilized in the state Medicaid Program, including quantitative and non-quantitative treatment limits, as indicated in state statutes and regulations, the state plan and other state policy and procedures. These services are:

- Essential to prevent, diagnose, prevent the worsening of, alleviate, correct, or cure medical conditions that endanger life, cause suffering or pain, cause physical deformity or malfunction, threaten to cause or aggravate a handicap, or result in illness or infirmity of a member;
- Are provided in the appropriate setting and at the appropriate level of care for the treatment of member's medical condition; and
- Are provided in accordance with objective and evidence-based criteria and standards of medical practice.

Services must be rendered in the most effective and conservative or substantially less costly setting available. Treatments and services rendered must also be clinically appropriate. Utilization Management (UM) decision-making is based only on appropriateness of care and service and existence of coverage. In keeping with SCDHHS policies and procedures, Absolute Total Care shall not cover experimental, investigational, or cosmetic procedures.

Absolute Total Care's Medical Management Department hours of operation are Monday through Friday (excluding holidays) from 8 a.m. to 6 p.m. For prior authorizations during business hours, the provider should contact:

Medical Management/UM Department

Telephone: 1- 866-433-6041

Fax: 1-866-912-3606

After hours and on holidays, please contact 1-866-433-6041 for urgent and emergent access to the UM Department for clinical determinations.

The Behavioral UM Department's hours of operation are Monday through Friday (excluding holidays) from 8 a.m. to 6 p.m. Behavioral UM staff can be reached by their toll-free number at 1-866-534-5976.

Behavioral Health Services

Telephone: 1-866-534-5976

Fax: 1-866-694-3730

Clinical Criteria Requirements

Information necessary for authorization may include but is not limited to:

- Member's name and ID number;
- Physician's name and telephone number;
- Facility name, if the request is for an inpatient, skilled nursing facility, long-term care facility admission, or outpatient services;
- Reason for service, primary and secondary diagnoses, surgical procedures, and surgery date;
- Relevant clinical information, past/proposed treatment plan, surgical procedure and diagnostic procedures to support the appropriateness and level of service proposed;
- Date of service, admission date, or proposed surgery date, if the request is for an inpatient admission;
- Requested length of stay, if the request is for an inpatient admission;
- Discharge plans, if the request is for an inpatient admission;
- For obstetrical (OB) admissions, the date and method of delivery, estimated date of confinement, and information related to the newborn or neonate; and/or
- Clinical reason for a delivery prior to 39 weeks gestation.

If more information is required, the Medical Management Team (medical director, registered nurse, or licensed practical nurse) will notify the requestor of the specific information needed to complete the authorization process.

Absolute Total Care affirms that UM decision-making is based only on appropriateness of care and service and the existence of coverage. Absolute Total Care does not specifically reward practitioners or other individuals for issuing denials of coverage or care.

Consistent with 42 CFR 438.3(i) and 422.208, delegated providers must ensure that compensation to individuals or entities that conduct UM activities is not structured to provide incentives for the individual or entity to deny, limit, or discontinue medically necessary services to any enrollee.

Failure to obtain a required prior authorization may result in payment denials.

Utilization Management (UM) Criteria

Absolute Total Care has adopted utilization review criteria developed by McKesson InterQual Products. Specialists representing a national panel from community-based and academic practices develop InterQual appropriateness criteria. InterQual criteria cover medical and surgical admissions, outpatient procedures, and ancillary services. Additional criteria is established, periodically evaluated, and updated with appropriate involvement from physician and other clinical members of the Clinical Policy Committee. InterQual and other clinical criteria is utilized as a screening guide and is not intended to be a substitute for practitioner judgment. Utilization review decisions are made in accordance with currently accepted medical or healthcare practices, taking into account special circumstances of each case that may require deviation from the norm stated in the screening criteria. **Criteria are used for the approval of medical necessity. When the requested service does not meet medical necessity benefit provisions, protocols or evidence-based medicine, the medical director will review and use this information in his or her determination and/or in the rendering of a denial decision. The member, member's representative, or provider may obtain a copy of the actual benefit provision,**

guideline, protocol, or other criterion on which the denial decision was based upon request to the Medical Management Department at 1-866-433-6041.

Practitioners also have the opportunity to discuss any medical UM denial decisions with a physician or other appropriate reviewer at the time of notification to the requesting practitioner/facility of an adverse determination. Absolute Total Care's Medical Director may be contacted by calling Absolute Total Care's main toll-free telephone number and asking for the medical director. A Care Manager may also coordinate communication between the medical director and the requesting practitioner.

Members, a member's representative, or a healthcare professional with written member's consent may request an appeal related to a medical necessity decision made during the authorization, pre-certification, or concurrent review process orally or in writing to:

Absolute Total Care
ATTN: Grievance and Appeals Department
1441 Main Street, Suite 900
Columbia, SC 29201

Telephone: 1-866-433-6041
Fax: 1-866-918-4457

Concurrent Review

Absolute Total Care's Medical Management Department will concurrently review the treatment and status of all members who are inpatient through contact with the hospital's Utilization and Discharge Planning Departments and, when necessary, the member's attending physician. An inpatient stay will be reviewed as indicated by the member's diagnosis and response to treatment. The review will include evaluation of the member's current status, proposed care plan, discharge plans, and any subsequent diagnostic testing or procedures. All requested clinical information (medical records) is required to be received by the date/time indicated from the concurrent review nurse. **Information not received will result in a denial due to Absolute Total Care's inability to determine medical necessity.**

Absolute Total Care's Medical Management Department may contact the member's admitting physician's office or PCP's office prior to the discharge date established during the authorization process to check on the member's progress and to make certain the member receives medically necessary follow up services.

Observation Bed Guidelines

In the event that a member's clinical symptoms do not meet the criteria for an inpatient admission, but the treating physician believes that allowing the member to leave the hospital would likely put the member at serious risk, the member may be admitted to the facility for an observation period. Observation bed services are those services furnished on a hospital's premises, including use of a bed and periodic monitoring by a hospital's nurse or other staff. **Observation admissions must be authorized by Absolute Total Care's UM Department.** These services are reasonable and necessary to:

- Evaluate an acutely ill member's condition.

- Determine the need for a possible inpatient hospital admission.
- Provide aggressive treatment for an acute condition.

An observation may last up to a maximum of 72 hours. In those instances that a member begins their hospitalization in an observation status and the member is changed to an inpatient admission, all incurred observation charges and services will be rolled into the acute reimbursement rate, or as designated by the contractual arrangement with Absolute Total Care, and cannot be billed separately. It is the responsibility of the hospital to notify Absolute Total Care of the inpatient admission. Providers should not substitute outpatient observation services for medically appropriate inpatient hospital admissions.

Discharge Planning

Discharge planning activities must be initiated upon admission. Absolute Total Care's Medical Management Department will coordinate the discharge planning efforts with the hospital's Utilization and Discharge Planning Departments and, when necessary, the member's attending physician/PCP to ensure that Absolute Total Care members receive appropriate post-hospital discharge care.

Prior Authorization

For the most up to date list of services that require authorization, visit our website at absolutetotalcare.com and use our online Pre-Auth Check Tool. Criterion used in decision-making is available upon request to the provider, member, or member's authorized representative by contacting the UM Department.

Prior authorization is not a guarantee of payment. Payment of claims is subject to all of the terms and conditions of the member's benefit plan, including but not limited to, member eligibility, benefit coverage at the time of the services are provided, and any pre-existing condition exclusions referenced in the member's benefit plan as well as provider contracts, correct coding, and billing practices.

Inpatient Prior Authorization

- All pre-service, non-emergent, non-urgent elective, or scheduled inpatient admissions (except for normal newborn deliveries) require the physician's office to call within **10 calendar days** prior to the proposed admission date, and the hospital to notify Absolute Total Care within **one business day** following the actual date of admission.
 - This requirement includes admission to any level of acute or sub-acute care, skilled nursing facilities, rehabilitation admissions, transplant services including pre- and post-transplant services, and all other inpatient facility type admissions. This requirement also includes different levels of care within, in, or between facilities (i.e., transfer from acute to rehab or transfer to a different facility).
 - LTC facility at the skilled or intermediate levels of care (benefit restriction of first 90 days only).
- For all emergent or urgent inpatient admissions: the hospital must notify the UM Department within **one business day** following the date of admission. Clinical admission information must be provided.
- Newborn deliveries must be called in by the next business day after delivery.
- For all observation stays, the hospital must notify the UM Department within **one business**

day after the date observation status began, and clinical information must be provided.

Services, excluding emergency and urgent care, may require prior authorization at any non-participating, out-of-network, or out-of-state facility, vendor, or provider.

Non-Inpatient Prior Authorizations

This is not an all-inclusive list. For a complete listing of non-inpatient services requiring prior authorization, please visit our website at absolutetotalcare.com.

Standard Service Authorization: Standard prior authorization requests should be submitted for medical necessity review at least 10 calendar days before the scheduled service delivery date or as soon as the need for service is identified. Prior authorization decisions for non-urgent services shall be made within **14 calendar days** of receipt of the request for services. An extension may be granted for an additional **14 calendar days** if the member, the member's authorized representative, or the provider requests an extension or if Absolute Total Care can justify a need for additional information and the extension is in the member's best interest.

Expedited Service Authorization: In the event the provider indicates, or Absolute Total Care determines, that following the standard time frame could seriously jeopardize the member's life or health or ability to attain, maintain, or regain maximum function, Absolute Total Care will make an expedited authorization determination and provide notice within **72 hours** of receiving the request. All such requests must be indicated as **urgent** when submitting to Absolute Total Care. An extension may be made up to 14 calendar days if the member, the member's authorized representative, or the provider requests an extension or if, within **24 hours** of receiving the request, Absolute Total Care justifies a need for additional information and the extension is in the member's best interest.

Abortions: Abortions are covered according to applicable federal and state laws and regulations.

Therapeutic Abortions: Abortions and services associated with the abortion procedure shall be covered only when the physician has found, and certified in writing, that on the basis of his or her professional judgment, the pregnancy is a result of rape or incest or the member suffers from a physical disorder, physical injury, or physical illness, including a life-endangering physical condition caused by or arising from the pregnancy itself, that would place the member in danger of death unless an abortion is performed and must be documented in the medical record by the attending physician stating why the abortion is necessary. Abortions must be documented with a completed Abortion Statement Form, which can be found on SCDHHS's website, to satisfy federal and state regulations.

Abortions which are reported with diagnosis and procedure codes for therapeutic abortions must be accompanied by complete medical records which substantiate life endangerment to the mother or that the pregnancy is the result of rape or incest **and** with the signed Abortion Statement Form. The patient's certification statement is only required in cases of rape or incest.

Required forms must be properly completed as described in the instructions and contain the name and address of the patient, the reason for the abortion, and the physician's signature and date. The original forms must be maintained in the Medicaid MCO member's medical file and a copy must be submitted to Absolute Total Care for retention in the event of audit.

The following diagnosis codes are to be used in reporting therapeutic abortions:

- Diagnosis codes in the 635 range should be used **only** to report therapeutic abortions performed on or before September 30, 2015.
- Diagnosis codes to be used only to report therapeutic abortions performed on or after October 1, 2015 are O04.5; O04.6; O04.7; O04.80; O04.81; O04.82; O04.83; O04.84; O04.85; O04.86; O04.87; O04.88; O04.89; Z33.2.

Non-Elective Abortions: All non-elective abortions, including spontaneous, missed, incomplete, septic, and hydatidiform mole abortions, require only that the medical record verify such a diagnosis. Legible medical records should be included with all non-elective abortion claims and should include admission history and physical, discharge summary, pathology report, operative report, and physician progress notes unless otherwise noted below.

The following diagnosis codes are to be used in reporting non-elective abortions:

- The appropriate other diagnosis codes (e.g., 630, 631, 632, 634, 636, and 637) should be reported for non-elective abortions on or before September 30, 2015. For dates of service on or before September 30, 2015, the following diagnosis codes do not require documentation: 630, 631, 632, 656.4(0,1,3), 658.1 (0,1,3), and 658.2 (0,1,3).
- The appropriate other diagnosis codes (e.g., O01.0; O01.1; O01.9 O02.0; O02.1; O02.81; O02.89; O02.9; O03.0; O03.1; O03.2; O03.30; O03.31; O03.32; O03.33; O03.34; O03.35; O03.36; O03.37; O03.38; O03.39; O03.4; O03.5; O03.6; O03.7; O03.80; O03.81; O03.82; O03.83; O03.84; O03.85; O03.86; O03.87; O03.88; O03.89; O03.9) should be reported for non-elective abortions on or after October 1, 2015. For dates of service on or after October 1, 2015, the following diagnosis codes do not require documentation: O01.0; O01.1; O01.9 O02.0; O02.1; O02.81; O02.89; O02.9; O36.4XX0, O36.4XX1, O36.4XX2, O36.4XX3, O36.4XX4, O36.4XX5, O36.4XX9, O42.00, O42.019, O42.90, O42.919, O42.011, O42.012, O42.013, O42.02, O42.911, O42.912, O42.913, O42.92, O42.10, O42.111, O42.112, O42.113, O42.119, O42.12.

Hysterectomies: Medically necessary hysterectomies must meet the following requirements:

- The member or her representative, if any, must be informed orally and in writing that the hysterectomy will render the individual permanently incapable of reproducing.
- The member or her representative, if any, must sign and date an acknowledgment of receipt of Consent for Sterilization Form (Form HHS-687) prior to the hysterectomy. Informed consent must be obtained regardless of diagnosis or age.
- The Consent for Sterilization Form (Form HHS-687) is acceptable when signed after the surgery only if it clearly states that the patient was informed prior to the surgery that she would be rendered incapable of reproduction.
- The acknowledgment form is not required if the individual was already sterile before the hysterectomy or if the individual required a hysterectomy because of a life threatening emergency situation in which the physician determined that prior acknowledgment was not possible. In these circumstances, a physician statement is required.
- The hysterectomy shall not be covered if performed solely for the purpose of rendering an individual permanently incapable of reproducing.
- The hysterectomy shall not be covered if there was more than one purpose for performing the hysterectomy, but the primary purpose was to render the individual permanently incapable of reproducing.
- All prior approval requests for hysterectomies must be submitted with the Consent for

Sterilization Form (Form HHS-687) for review. There is a 30-day wait period from the date the Consent for Sterilization Form (Form HHS-687) is signed before the surgery is performed. For urgent and emergent hysterectomy cases the 30-day wait is not required, however the reason for the emergency must be provided by the provider.

Sterilizations: Non-therapeutic sterilization must be documented with a completed Consent for Sterilization Form (Form HHS-687), which will satisfy federal and state regulations. Sterilization requirements include the following:

- Sterilization shall mean any medical procedure, treatment, or operation done for the purpose of rendering an individual permanently incapable of reproducing.
- The individual to be sterilized shall give informed consent not less than 30 calendar days (or not less than 72 hours in the case of premature delivery or emergency abdominal surgery) but not more than 180 calendar days before the date of the sterilization. A new Consent for Sterilization Form (Form HHS-687) is required if 180 calendar days have passed before the surgery is provided.
- The completed Consent for Sterilization Form (Form HHS-687) cannot be obtained while the patient is in the hospital for labor, childbirth, abortion, or under the influence of alcohol or other substances that affects the patient's state of awareness.
- The individual to be sterilized is at least 21 years old at the time consent is obtained.
- The individual to be sterilized is mentally competent.
- The individual to be sterilized is not institutionalized (i.e., not involuntarily confined or detained under a civil or criminal status in a correctional or rehabilitative facility or confined in a mental hospital or other facility for the care and treatment of mental illness, whether voluntarily or involuntarily committed).
- The individual has voluntarily given informed consent on the approved Consent for Sterilization Form (Form HHS-687).

Transplant-Related Services: The following services are covered by Absolute Total Care and require coordination with a Care Manager:

- Corneal transplants;
- Pre-transplant services 72 hours prior to pre-admission;
- Post-transplant follow-up services; and
- Post-transplant pharmaceutical services.

Providers should contact Absolute Total Care's Care Management Department at 1-866-433-6041 for assistance with all potential or impending transplant cases. Transplant services covered by Absolute Total Care will not be reimbursed unless coordinated by an Absolute Total Care's Care Manager.

All other transplant services remain a benefit of the Medicaid Fee-For-Service Program.

Developmental Evaluation Services: Developmental Evaluation Services are defined as medically necessary comprehensive neuro-developmental and psychological developmental, evaluation, and treatment services for members between the ages of 0 to 21 years. These members have or are suspected of having a developmental delay, behavioral or learning disability, or other disabling

condition. These services are for facilitating correction or amelioration of physical, emotional, and/or mental illnesses and other conditions, which if left untreated, would negatively impact the health and quality of life of the member. Contact the Care Management Department to obtain an authorization for referral to developmental evaluation services, and to enroll the member in Special Needs Care Management.

Care Management Department

Telephone: 1-866-433-6041

Fax: 1-866-918-4451

Notification of Pregnancy

Submit a completed Notification of Pregnancy Form for expectant mothers within five days of their first prenatal visit to notify Absolute Total Care of the pregnancy, the estimated date of confinement, and delivery facility. The form will enroll members into our Start Smart for Your Baby® Program (Start Smart). The earliest possible completion of the Notification of Pregnancy Form allows Absolute Total Care to best use our services to keep expectant mothers engaged with their pregnancy, as well as to achieve a healthy pregnancy outcome. The Notice of Pregnancy Form can be found at absolutetotalcare.com under Provider Resources. **Fax the completed Notification of Pregnancy Form to 1-866-681-5125.**

Providers can complete the Prenatal Vitamin Program Form if they would like expectant mothers to receive a free three months' supply of prenatal vitamins. The Prenatal Vitamin Program Form can be found at absolutetotalcare.com on the Provider Manual and Forms webpage. **Fax the completed forms to 1-877-737-9135.**

Second Opinion

Members, a member's representative, or a healthcare professional with member's consent may request and receive a second opinion from a qualified professional within Absolute Total Care's network. If there is not an appropriate provider to render the second opinion within the network, the member may obtain the second opinion from an out-of-network provider at no cost to the member. Services rendered by out-of-network providers may require a prior authorization. For an updated list of those services, visit our website at absolutetotalcare.com and review the online Pre-Auth Check Tool.

Assistant Surgeon

Reimbursement is provided to assistant surgeons when medically necessary. Absolute Total Care utilizes guidelines for assistant surgeons as set forth by the American College of Surgeons.

Hospital medical staff by-laws that require an assistant surgeon to be present for a designated procedure is not grounds for reimbursement. Medical staff by-laws alone do not constitute medical necessity, nor is reimbursement guaranteed when the patient or family requests an assistant surgeon be present for the surgery. Coverage and subsequent reimbursement for an assistant surgeon's service is based on the medical necessity of the procedure itself and the assistant surgeon's presence at the time of the procedure.

Continuity of Care

In some instances, Absolute Total Care will authorize payment for a provider other than Absolute Total Care's PCP to coordinate the member's care. The services initiated prior to the member's enrollment with Absolute Total Care must have been covered under Fee-For-Service, or approved by the prior MCO. These services shall be continued until the PCP evaluates the member and a new plan of care is established. Authorization is typically for a period of no longer than 90 days or until a participating provider with equivalent expertise can be identified.

Care Management Services

Medical care management is a collaborative process which assesses, plans, implements, coordinates, monitors, and evaluates the options and services to meet an individual's health needs, using communication and available resources to promote quality, cost-effective outcomes. Care coordination/management is a member-centered, goal-oriented, culturally relevant, and logically managed process to help ensure that a member receives needed services in a supportive, effective, efficient, timely, and cost-effective manner.

Absolute Total Care's Care Managers support the physician by tracking compliance with the care management plan, and facilitating communication between the member, the member's managing physician, and the Care Manager. The Care Manager also facilitates referrals and linkages to community providers, such as local health departments and school-based clinics. The managing physician maintains responsibility for the patient's ongoing care needs. The Care Manager will contact the managing physician if the member is not following the plan of care or requires additional services.

Absolute Total Care will provide individual care management services for members who have high-risk, high-cost, complex, or catastrophic conditions. The Care Manager will work with all involved providers to coordinate care and provide referral assistance and other care coordination as required. The Care Manager may also assist with a member's transition to other care, as indicated, when Absolute Total Care benefits end.

Care Management Process

Absolute Total Care's care management for high-risk, complex, or catastrophic conditions contains the following key elements:

- Screen and identify members who potentially meet the criteria for high-risk care management;
- Assess the member's risk factors to determine the need for care management;
- Obtain acceptance from the member to participate in care management;
- Notify the member's PCP of the member's enrollment in Absolute Total Care's Care Management Program;
- Develop and implement a treatment plan that accommodates the specific cultural and linguistic needs of the member;
- Establishment of treatment objectives and monitoring of outcomes;
- Refer and assist the member in ensuring timely access to providers;
- Coordinate medical, residential, social, and other support services;
- Monitor care/services;
- Revise the treatment plan as necessary;
- Track plan outcomes; and

- Follow-up post discharge from care management.

Lead Case Management

Absolute Total Care will provide care management services to all eligible children with blood lead levels (BLL) ≥ 5 ug/dL. Services will include family education about lead poisoning, referral in obtaining lead abatement, coordination of testing of siblings of those children identified with high blood lead levels, scheduling of appointments, and transportation when needed.

In addition, our MemberConnections Program provides direct outreach to parents and guardians to educate them on blood lead poisoning.

Chronic and Complex Conditions

Absolute Total Care provides individual care management services for members who have chronic, complex, high-risk, high-cost, or other catastrophic conditions. Members with special healthcare needs are included in the Chronic and Complex Care Management Care Coordination Program. A Care Manager will work with all involved providers to coordinate care and provide referral assistance and other support as required. Absolute Total Care also uses disease management programs and associated practice guidelines and protocols for members with chronic conditions, including conditions such as asthma and diabetes.

Members who qualify for chronic or complex care management services have an ongoing physical, behavioral, or cognitive disorder, including chronic illnesses, impairments, and disabilities. These limitations are expected to last at least 12 months with a resulting functional limitation, reliance on compensatory mechanisms, such as medication, special diet, or assistive device, and require service use or need beyond that which is normally considered routine.

The Care Manager will coordinate care needs, assist in identifying and obtaining supportive community resources, and arrange for long-term referral services as needed. The Care Manager may identify (and a member may request) a specialist with whom a member with a chronic condition has an ongoing relationship, who may serve as the PCP and coordinate services on the member's behalf.

Members determined to need a course of treatment or regular care monitoring may have direct access to a specialist as appropriate for the member's condition and identified needs, such as through a standing referral or an approved number of visits. A member's PCP will develop a treatment plan with the member's participation and in consultation with any specialists caring for the member. Absolute Total Care's Medical Director oversees these processes in accordance with state standards.

Absolute Total Care encourages all PCPs and physicians to notify the Care Management Department when a member is identified that meets the criteria for a chronic or complex condition.

Care Management Department

Telephone: 1-866-433-6041

Fax: 1-866-918-4451

Disease Management Programs

As a part of Absolute Total Care's medical management quality improvement efforts, disease management programs are offered to members. Components of the programs available include, but are not limited to:

- Increasing coordination between the medical, social, and educational communities;
- Assuring that referrals are made to proper providers, including dental providers;
- Improving levels of screening at birth and more consistent referrals to and from Early Intervention Programs;
- Ensuring active and coordinated physician/specialist participation;
- Identifying modes of delivery for coordinated care services, such as home visits, clinic visits, and telephone contacts depending on the circumstances and needs of the member and his or her family; and
- Increasing the ability of the member and member's caregiver to self-manage chronic conditions.

Asthma Program

The Asthma Disease Management Program targets Absolute Total Care members with asthma who are over-using rescue medications, having repeated visits to the ER, or being admitted to the hospital with a primary diagnosis of asthma. A Care Manager will contact these members and provide additional education. The Care Manager will coordinate care with the member's PCP. The goals of this program include increasing positive clinical outcomes for the member and controlling the asthma in order to improve the quality of life for the member.

Absolute Total Care's Asthma Disease Management Program utilizes evidence-based guidelines sponsored by the National Asthma Education and Prevention Program, education, care assessment, in-home visits for high-risk members unable to be reached by telephone, initial telephone visits, physician communication, and follow-up visits as indicated by the member's ability to self-manage and remain compliant with the plan of care.

Emergency Room (ER) Diversion Program

The Medical Management Department has developed an ER Diversion Program that identifies members who misuse or utilize ER services inappropriately. The target population for this program is those individuals who use the ER for treatment of non-emergent medical conditions rather than their PCP or urgent care. The goals and objectives of the ER Diversion Program are to:

- Empower members towards achievement of optimum health, functional capability, and quality of life through improved management and understanding of their disease or condition;
- Assist members in accessing available and appropriate benefits and resources;
- Work collaboratively with members, family, significant others, providers, and community organizations to develop goals and assist/empower members in achieving those goals;
- Assist members by facilitating timely coordination of appropriate services in the most appropriate settings;
- Maximize benefits and resources through oversight and cost-effective UM;
- Decrease medically unnecessary admissions and/or readmissions for the same or similar diagnosis;

- Decrease non-emergent ER usage; and
- Increase PCP usage.

Diabetes Program

Absolute Total Care's Diabetes Program targets members who have been diagnosed and treated for diabetes mellitus. Members are stratified based on the severity of their illness so that interventions can be targeted to the appropriate population. Through this program, Absolute Total Care members can receive additional education, care management, and support from the Medical Management Department to enhance positive clinical outcomes.

Perinatal/High-Risk Obstetrical

Pregnancy, labor, and delivery account for a large portion of care provided to Absolute Total Care members. Those at high-risk for complications of pregnancy and poor neonatal outcomes are provided care coordination services through our Perinatal Program. The goals of the program are to screen all pregnant members, identify and coordinate care for pregnant members (who are at high-risk for complications of pregnancy), and assure that all members have access to appropriate care for diagnosis, monitoring, and treatment of pregnancy. Absolute Total Care's Perinatal Program Nurse must authorize any high-risk ancillary service. Ancillary services include, but are not limited to, home pregnancy monitoring, home infusion therapy, education or testing, and the provision of durable medical equipment (DME). To contact our OB Care Manager, call 1-866-433-6041 or fax 1-866-918-4451.

Absolute Total Care will provide educational opportunities to inform our members about the benefits and risks associated with behaviors that may affect the outcome of their pregnancy and facilitate transitions to home when outcomes are less than ideal. We will provide educational opportunity and support for pregnant women and their partners about appropriate care of newborns as well as identifying pediatric providers and access to care for their newborn.

When an event occurs resulting in an early delivery and resultant admission to a Neonatal Intensive Care Unit, our Care Managers will work with the hospital neonatal providers, discharge planners, and managing pediatric provider to ensure a smooth transition to home and coordination of ongoing follow-up care as needed.

Premature Delivery Prevention

Absolute Total Care offers assistance with prevention of premature delivery. Use of Makena has shown a substantial reduction in the rate of recurrent pre-term delivery among women who were at a particularly high-risk for pre-term delivery. When a physician determines that a member is a candidate for Makena, the physician writes a prescription for Makena and completes the Universal Makena Form, which includes prenatal history. Because Makena requires prior authorization, the prescription and form are sent to Absolute Total Care's Care Managers who will check for eligibility. The Care Managers will coordinate ordering and delivery of the prescribed medication directly to the physician's office or the member's home if Makena is to be administered in the home. An OB Care Manager will contact the member and perform an assessment regarding compliance. The Care Manager will remain in contact with the member and the prescribing physician during the entire treatment period. A copy of the Universal Makena Form may be found on our website at absolutetotalcare.com.

Other Disease/Care Management Programs will be developed based on SCDHHS or as determined through Absolute Total Care's analysis of the membership in conjunction with the QIC.

Providers are asked to contact a Care Manager to refer a member identified in need of care coordination intervention:

Telephone: 1-866-433-6041

Fax: 1-866-918-4451

Preventive and Clinical Practice Guidelines and Protocols Including Chronic Care

Absolute Total Care Preventive and Clinical Practice Guidelines are based on the health needs and opportunities for improvement identified as part of the Quality Assessment and Performance Improvement (QAPI) Program. Whenever possible, Absolute Total Care adopts preventive and clinical practice guidelines that are published by nationally recognized organizations or government institutions. These guidelines have been reviewed by our QIC, which includes representation from Absolute Total Care network physicians. We encourage providers to use these guidelines as a basis for developing a personalized treatment plan for our members and to aid members in making decisions about their healthcare. Absolute Total Care may measure compliance with these guidelines through monitoring of related HEDIS measures and/or through random ambulatory medical record audits.

Absolute Total Care UM, member education, coverage of services, and other areas in which the guidelines apply are consistent with these guidelines. These guidelines are used for both preventive services as well as for the management of chronic diseases.

Preventive and Chronic Disease Guidelines include, but are not limited to:

Preventive Guidelines

- Recommended Adult Immunization Schedule for Adults 19 Years or Older
- Adult Preventive Health Guidelines:
 - The Adult Well-Male Examination
 - Well-Woman Recommendations
- Recommendations for Blood Lead Screening of Medicaid-Eligible Children aged 1-5 years
- Recommendations for Preventive Pediatric Health Care: Lead
- Recommended Immunizations Schedules for Children and Adolescents aged 18 years or Younger
- Catch-up Immunization Schedule for Persons Aged 4 Months Through 18 Years Who Start Late or Who are More Than 1 Month Behind
- Prevention and Control of Seasonal Influenza with Vaccines
- Recommendations for Preventive Pediatric Health Care
- Early and Periodic Screening, Diagnostic and Treatment (Medicaid)

Quick Reference Guidelines Summaries

- Standards of Medical Care in Diabetes
- ACOG's Clinical Guidelines: Deliveries Before 39 Weeks
- Prenatal Care
- Optimizing Postpartum Care
- Sickle Cell Recommendations
- Guideline for the Prevention, Detection, Evaluation and Management of High Blood Pressure in Adults

Full Clinical Practice Guidelines

- Attention-Deficit/Hyperactivity Disorder (ADHD)
- Full Report – Expert Panel Report 3: Guidelines for the Diagnosis and Management of Asthma
- Asthma Care Quick Reference: Diagnosing and Managing Asthma
- Practice Guideline for the Treatment of Patients with Bipolar Disorder
- Standards of Medical Care in Diabetes: Summary of Revisions
- Treatment of Patients with Major Depressive Disorder
- Practice Parameter for the Assessment and Treatment of Children and Adolescents with Depressive Disorders
- Evidence-Based Management of Sickle Cell Disease
- ACCF/AHA Guideline for the Management of Heart Failure
- Practice Parameter for the Assessment and Treatment of Children and Adolescents with Bipolar Disorder
- Practice Guideline for the Treatment of Patients with Substance Use Disorders

Guidelines are reviewed and updated at least every two years or upon significant change. Current preventive and clinical practice guidelines are available on our provider website and may be mailed to practitioners as part of disease management or other QI Program initiatives. The guidelines can be found at absolutetotalcare.com under the Quality Improvement Program section, or you may request a hard copy by calling Provider Services at 1-866-433-6041.

New Technology

Absolute Total Care evaluates the inclusion of new technology and the new application of existing technology for coverage determination. This may include medical and behavioral healthcare procedures, drugs, and/or devices. The medical director and/or Medical Management Department may identify relevant topics for review pertinent to Absolute Total Care's population. The Clinical Policy Committee reviews all requests for coverage and makes a determination regarding any benefit changes that are indicated.

When a request is made for coverage with a new technology, which has not been reviewed by the Clinical Policy Committee, Absolute Total Care's Medical Director will review all information and make a one-time determination within two business days of receipt of all information. This new technology request will then be reviewed at the next regular meeting of the Clinical Policy Committee. If you need a new technology benefit determination or have an individual case review for new technology, please

contact the Medical Management Department at 1-866-433-6041. SCDHHS will be notified in writing 30 days following any material change to the Medical Management Program.

Screening Brief Intervention and Referral to Treatment (SBIRT)

SBIRT is an evidenced-based, integrated, and comprehensive approach to the identification, intervention, and treatment of substance (drug and alcohol) usage, domestic violence, depression, and tobacco use in pregnant women to include 12 months postpartum. This initiative is a collaboration between SCDHHS, Absolute Total Care (and all South Carolina Medicaid managed care plans) and state agencies to include the South Carolina Department of Health and Environmental Control (SCDHEC) and the Department of Alcohol and Other Drug Abuse Substances (DAODAS).

Screening

Screening is the process of identifying substance use, behavioral health issues and domestic violence in the members using the Universal Screening Tool. The Healthcare Common Procedure Coding System (HCPCS) code for the screening is H0002 and may be billed once during a fiscal year (July 1st to June 30th). All positive screening should be billed using H0002 with an HD modifier. Physicians and their clinical/social work staff are allowed to perform the Screening, but may only be billed under the physician. **Non-clinical staff** are not permitted to perform the screening.

Brief Intervention

Brief intervention is a five to 10 minute session to raise awareness with the member of the risks associated with behaviors. The brief intervention should motivate the member to engage in choices that support a healthy pregnancy. The HCPCS code for Brief Intervention is H0004 and may be billed twice per year (July 1st through June 30th). All brief interventions that result in referral to treatment should be billed using H0004 with an HD modifier. Physicians and their clinical/social work staff are allowed to perform the brief intervention, but may only be billed under the physician.

Referral to Treatment

Referral to treatment identifies the risk and the member accepts a referral to an outside agency for assistance to change their behavior.

Procedure	Code
Screening	H0002
Positive Screen	H0002 HD modifier
Brief Intervention	H0004
Brief Intervention Resulting in a Referral	H0004 HD modifier

For more information and details on SBIRT, visit absolutetotalcare.com.

Routine, Urgent, and Emergency Care Services Defined

Members are encouraged to contact their PCP prior to seeking care, although it is not required in an emergency.

The following are definitions for **routine**, **urgent** and **emergency services**.

Routine Services

Services to treat a condition that would have no adverse effects if not treated within four to six weeks or could be treated in a less acute setting (e.g., physician's office) or by the patient. Examples include treatment of a cold, flu, or mild sprain.

Urgent* Services

Services furnished to treat a medical condition that requires attention within 48 hours. If the condition is left untreated for 48 hours or more, it could develop into an emergency condition.

Emergency* Medical Condition

An emergency medical condition is defined as a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in placing the health of the individual (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy, impairment to bodily functions or dysfunction of any bodily organ or part.

Appointment Type	Access Standard
Routine visits with a PCP	Within four to six weeks
Routine visits with a unique specialist	Within 12 weeks
Urgent, non-emergency visits	Within 48 hours
Emergent or emergency visits	Immediately upon presentation at a service delivery site
24- hour PCP coverage	24 hours a day, seven days a week or triage system approved by Absolute Total Care
Office wait time for scheduled routine appointments	Not to exceed 45 minutes
Walk-in appointments/non-urgent	Should be seen if possible or scheduled for an appointment
Walk-in appointments/urgent	Should be seen within 48 hours

An emergency service area covers inpatient and outpatient services that are as follows:

- Furnished by a qualified individual provider or entity that is engaged in the delivery of services, or ordering or referring for those services, and is legally authorized to do so by the state in which it delivers the services; and
- Needed to evaluate or stabilize an emergency medical condition.

An emergency medical condition shall not be defined or limited based on a list of diagnoses or symptoms.

*Emergency care is not subject to prior authorization or pre-certification. Urgent care provided in an urgent care facility **does not** require prior authorization. A qualified provider, regardless of network participation, must provide emergency services. The PCP plays a major role in educating Absolute Total Care members about appropriate and inappropriate use of hospital emergency rooms. The PCP is

responsible to follow up on members who receive emergency care from other providers.

In emergency medical conditions the facility should use its best efforts to contact the PCP, or in the case of a pregnant woman, the member's OB. The facility should document all attempts to contact the PCP or the obstetrician and determinations made on appropriate care. At no time should emergency services be withheld or delayed.

For billing information please refer to the General Billing Guidelines section of this Provider Manual.

The attending ER physician, or the provider actually treating the member, is responsible for determining when the member is sufficiently stabilized for transfer or discharge.

Absolute Total Care will not retroactively deny a physician claim for an emergency screening examination because the condition, which appeared to be an emergency medical condition under the prudent layperson standard, turned out to be non-emergency in nature; however, the prudent layperson test will be applied to the payment to the facility for charges. If a member is referred to the ER by an authorized representative acting on behalf of Absolute Total Care, such as the PCP, specialist, or nurse advice line, the emergency services will be covered.

The facility should verify member eligibility as soon as possible after the member presents to the ER.

Eligibility

The state of South Carolina has the sole responsibility for determining eligibility for Medicaid for all coverage groups except for Supplemental Security Income (SSI). The Social Security Administration (SSA) determines eligibility for SSI.

Those eligible persons who are assigned to Absolute Total Care currently include individuals in the following categories:

- Temporary Assistance for Needy Families (TANF);
- Sixth Omnibus Budget Reconciliation Act (SOBRA) – Pregnant women and children, including presumptive eligibility; and
- Social Security Income (SSI) without Medicare.

Verifying Eligibility

Providers are responsible for verifying eligibility every time a member schedules an appointment and when they arrive for services. PCPs should also verify that a member is their assigned member.

Call 1-866-912-3604 to reach the IVR System for quick eligibility verification or check online at www.scdhhs.gov (must have a provider login).

Until the actual date of enrollment with Absolute Total Care, Absolute Total Care is not financially responsible for services the prospective member receives. In addition, Absolute Total Care is not financially responsible for services members receive after their coverage has been terminated. Absolute Total Care is responsible for those individuals who are Absolute Total Care members at the time of a hospital inpatient admission and change health plans during that confinement.

Newborn Enrollment

Newborns of Absolute Total Care members will be enrolled in Absolute Total Care for the first 90 calendar days from birth, unless otherwise specified by the mother prior to delivery. The newborn shall continue to be enrolled in Absolute Total Care unless the mother changes to another health plan during the second or third month of the newborn's life. If the mother changes to a new health plan, the newborn will be moved to the new plan with the mother unless the mother requests that the newborn stay on Absolute Total Care's plan.

Providers are encouraged to refer the mother to Absolute Total Care to select a PCP for their newborn. A newborn enrollment packet will be mailed to all Absolute Total Care expectant mothers. This packet includes information that the newborn will be auto-assigned to Absolute Total Care and that the mother may select a PCP for her newborn prior to the birth by contacting Member Services. If the mother does not select a PCP after delivery, the mother's PCP will automatically be assigned to the newborn, unless the PCP is not accepting new members or the provider has age restrictions.

To make a PCP selection for the newborn, members should be referred to:

Member Services Department
Telephone: 1-866-433-6041 (TTY: 711)

All providers are also encouraged to direct the mother to her county caseworker to ensure the newborn is officially deemed eligible for the Medicaid Program.

Eligibility for newborns whose mothers are Absolute Total Care members on the date of delivery is effective on the date of birth.

Frequently, Absolute Total Care receives a claim(s) for a newborn prior to the state sending the member's eligibility information. It is imperative for providers to obtain a newborn's Medicaid ID number prior to billing for services. Without a member Medicaid ID number on the claim, the claim will be denied.

The above describes Absolute Total Care's general approach and is subject to modification in accordance with SCDHHS policies.

End Stage Renal Disease (ESRD)

Absolute Total Care follows the policies and procedures for ESRD as outlined in Section Two of the SCDHHS Physicians Provider Manual for program services. Absolute Total Care will reimburse as the primary sponsor of ESRD services, during the initial 90-day waiting period required by Medicare for eligibility determination. When it has been determined that the member is ineligible for Medicare coverage, Absolute Total Care will continue to reimburse ESRD services as the primary sponsor.

Absolute Total Care will not reimburse as primary sponsor for any Medicare-covered services once a determination of Medicare eligibility is received from the Social Security Administration. This would include any services provided after the 90-day waiting period, even if the Medicare determination is pending.

The ESRD facility, as the primary provider, is responsible for ensuring a Medicare application is made on behalf of the beneficiary.

We encourage you to complete and submit the CMS Form 2728 within the first 30 days of the member's receipt of dialysis treatments. If a member is denied Medicare coverage, a copy of the Medicare denial letter must be faxed immediately to Absolute Total Care's ESRD Program Coordinator at 1-866-912-3606.

Enrollment/Marketing Guidelines

Absolute Total Care's contract with SCDHHS defines how Absolute Total Care and its providers market and advertise the program. Accordingly, providers may not include any reference to their affiliation with SCDHHS or Absolute Total Care in their marketing or advertising without prior approval from Absolute Total Care and SCDHHS. SCDHHS requires providers to submit to Absolute Total Care samples of any marketing materials containing the Absolute Total Care or Healthy Connections logos they intend to distribute and to obtain state approval prior to distribution or display. Absolute Total Care's Marketing and Communications Department and Compliance Department submit these materials to SCDHHS.

Please contact Absolute Total Care prior to beginning any communications or marketing initiatives.

Non-Compliant Members

Absolute Total Care does recognize that there may be instances when a PCP may need help in managing non-compliant members. If you should have an issue with a member regarding a member's behavior (member being disruptive, unruly, threatening, or uncooperative to the extent that the member seriously impairs the provider's ability to provide services to the member or to other members) and the member's behavior is not caused by a physical or behavioral condition, cooperation with treatment and/or completion of treatment, or making or presenting for appointments, please contact Provider Services at 1-866-433-6041.

A PCP may request a member be transferred to another practice for any of the following reasons:

- Repeated disregard of medical advice;
- Repeated disregard of member responsibilities; and/or
- Personality conflicts between physician and/or staff with member.

All requests to remove a member from a panel must be made in writing and contain detailed documentation. The request must be directed to:

Absolute Total Care
Member Services Department
ATTN: Member Services Manager
1441 Main Street, Suite 900
Columbia, SC 29201

Upon receipt of such request, the Member Services Manager may:

- Interview the provider or their staff who is requesting the disenrollment, as well as any additional relevant providers;
- Interview the member;
- Review any relevant medical records; or
- Involve other Absolute Total Care departments as appropriate to resolve the issue.

A PCP should **never** request a member to be disenrolled for any of the following reasons:

- Adverse change in the member's health status or utilization of services which are medically necessary for the treatment of a member's condition;
- On the basis of the member's handicap, race, color, national origin, sex, age, disability, political beliefs, or religion; or
- Previous inability to pay medical bills or previous outstanding account balances prior to the member's enrollment with Absolute Total Care.

Covered Services

Ambulance Transportation (Emergency and Non-Emergency)

Absolute Total Care will pay for all transportation services provided via ambulance (provider code 82) for **all** member ambulance transports for Advanced Life Support (ALS) or Basic Life Support (BLS) – either emergency or non-emergency transports billable by an ambulance provider as medically necessary. These trips may be routine or non-routine transports to a Medicaid-covered service. Absolute Total Care will provide stretcher trips, as well as air ambulance or medivac transportation.

After-Hours Services (CPT 99050 and 99051)

99050: Services provided in the office at times other than regularly-scheduled office hours or days when the office is normally closed (i.e., Sundays and holidays) and may be billed in addition to other services.

99051: Services provided in the office during regularly-scheduled evening, weekend, or holiday office hours and may be billed in addition to other services.

The above codes may only be billed by PCPs (defined as pediatricians or family practice, general practice, internal medicine, or OB/GYN specialists).

Audiological Services

Absolute Total Care will pay for audiological services including diagnostic, screening, preventive, and/or corrective services provided to individuals with hearing disorders or for the purpose of determining the existence of a hearing disorder by or under the direction of an audiologist. A physician or other Licensed Practitioner of the Healing Arts (LPHA), within the scope of his or her practice under state law, must refer individuals to receive these services. Audiological services involve testing and evaluation of hearing-impaired children ages 20 years and younger who may or may not be improved with medication or surgical treatment. This includes services related to hearing aid use. Limits: covered for ages 20 years and younger.

Care Management

This service is available to non-institutionalized individuals with mental retardation/developmental disability, emotionally disturbed children, certain pregnant women, and other targeted groups with complex medical conditions. Members with medical conditions, such as ESRD, HIV/AIDS, metastatic cancers, progressive degenerative disorders, other catastrophic illness, and injuries and transplant recipients that require pre- and post-transplant care coordination are evaluated for care management. Care management services are defined as those services necessary to coordinate an optimum lifestyle for the targeted population. The services include:

- Monitoring the patient's needs;
- Working collaboratively with the affected member's PCP or other healthcare providers to coordinate medical needs; and/or
- Referring to providers for medical, educational, legal, and rehabilitative services, with documented follow up.

The Care Management Department will assist in self-sufficiency of the member and act as a deterrent to institutional care by facilitating service delivery. The Care Manager will deliver no counseling services.

Chiropractic Services

Chiropractic services are available to all recipients. Chiropractic services are limited to manual manipulation of the spine to correct a subluxation. Chiropractic visits are counted separately from the ambulatory visit limit. Absolute Total Care's Chiropractic Network is Health Network Solutions (HNS). An HNS provider must render all chiropractic services. This service has a limit of six visits per year (July 1 through June 30).

Circumcisions

A circumcision is covered during the initial newborn stay and up to 180 days after delivery in the office setting (Place of Service 11) without a prior authorization. Prior authorizations are required for all other locations and after 180 days of birth.

Durable Medical Equipment (DME) and Orthotics and Prosthetics

DME provides therapeutic benefits or enables a recipient to perform certain tasks that the member would be unable to undertake otherwise due to certain medical conditions and/or illnesses. DME can withstand repeated use and is primarily and customarily used for medical reasons and is appropriate and suitable for use in the home. **Included are medical supply products, surgical supplies, traction equipment, walkers, canes, crutches, kidney machines, ventilators, oxygen, and other items when**

ordered by a physician as medically necessary in the treatment of a specific medical condition. The attending physician has the responsibility of determining the type or model of equipment and length of time the equipment is needed through a written necessity statement. Approval for Absolute Total Care coverage of products requiring prior authorization is patient-specific and is determined according to certain established criteria. Luxury and deluxe models are restricted if standard models would be appropriate. Repairs to medical equipment are covered if reasonable.

Absolute Total Care follows SCDHHS DME rental guidelines. Prior authorization may be required for some DME.

- Capped rental equipment cannot initially be purchased. A capped rental item is only considered purchased when it has been rented for a maximum of 10 months. Some examples of capped rental equipment include manual hospital beds with mattress side rails, respiratory assist devices, insulin pumps, and standard manual wheelchairs.
- Most parenteral infusion pumps are capped rental items except nutrition infusion pumps with or without an alarm, stationary and portable parenteral nutrition infusion pumps, ambulatory infusion pumps, and stationary parenteral infusion pumps. These items are not considered purchased after the tenth month of rental and can continue to be rented.
- Limited rental equipment has a limited rental period and cannot be rented over 10 months. Some examples of limited rental equipment include powered air overlay mattresses, power pressure-reducing air mattresses, and negative pressure wound therapy electrical pumps.
- Maintenance of rented equipment is not covered by Absolute Total Care. Parts and supplies used in the maintenance of rented equipment are included in the rental payment of the equipment.

Absolute Total Care also covers certain prosthetic and orthotic devices when ordered by a physician and determined to be medically necessary. Absolute Total Care only covers hearing aids and hearing aid accessories for members age 20 years and younger with a prior authorization. For a complete list of covered codes that may be rendered by physician offices, visit absolutetotalcare.com and use the online Pre-Auth Check Tool.

Provider Type by Taxonomy	Service	Company
DME, O&P, Home Health, Home Infusion	DME, O&P, Home Health, Home Infusion	Absolute Total Care
Physician Office	DME and O&P	Absolute Total Care

Covered services by provider type are determined by SCDHHS fee schedules. You will receive a notification of non-benefit if the Current Procedural Terminology (CPT) or HCPCS code you are billing is not listed on the fee schedule for your provider type. Please contact Absolute Total Care at 1-866-433-6041 if you have any questions.

Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) Program

This program provides free medical check-ups for all Medicaid-eligible members through the month of their 21st birthday and treatment for medical problems. It is designed to be a preventive program.

Family Planning Services

This program provides counseling, diagnosis, treatment, and birth control drugs and supplies to help prevent unplanned and unintended pregnancy.

All family planning services should be provided on a voluntary and confidential basis to all members, including those that are less than 18 years of age.

Covered services prescribed and furnished by physicians, hospitals, clinics, and pharmacies include:

- Examinations;
- Assessments;
- Diagnostic procedures;
- Health education and counseling services related to alternative birth control and prevention;
- Traditional contraceptive drugs and supplies; and
- Preventive contraceptive methods.

Members should be encouraged to receive family planning services through their PCP or by appropriate referral to promote the integration of these services with their total plan of care. Members have the freedom to receive family planning services from any appropriate Medicaid provider without any restrictions.

Federally Qualified Health Center (FQHC)

Healthcare services furnished by FQHCs are cost-based reimbursed through encounter codes at an all-inclusive rate that reflects the cost of services.

Home Health Services

These services cannot be restricted to a requirement that the individual be homebound. The use of a homebound requirement under the Medicaid home health benefit violates federal regulatory requirements at 42 CFR Section 440.230(c) and Section 440.240(b). Home health services cannot otherwise be restricted to services furnished in the home itself. A Medicaid Home Health beneficiary can receive home health services in the beneficiary's place of residence, a doctor's office, outpatient clinic, an adult day center, or in another type of outpatient facility, not including a hospital or skilled nursing facility. These services include skilled nursing; home health aide; physical, occupational and speech therapy services; and physician ordered supplies. These services have a limitation of 50 visits per member per year (July 1 through June 30). Prior authorization is required.

Inpatient Hospital Services

Absolute Total Care will pay for medically necessary inpatient hospital care. Medicaid will pay for a semi-private room only, unless it is medically necessary to have a private room. The need for this care must be medically necessary and is reviewed by the UM Department throughout the admission for appropriate level of care. Prior authorization is required.

Inpatient Physician Visits

Absolute Total Care will pay for a physician to visit patients in the hospital. If the patient must be seen by more than one physician while in the hospital, Absolute Total Care will pay for those visits.

Institutional Long-Term Care Facilities

Absolute Total Care covers first 90 days of confinement in a long-term care facility only when the CLTC Certification (Form 185) has been completed by SCDHHS prior to admission, a level of care determination is indicated on the form, and the completed form is provided to Absolute Total Care. Services include nursing facility and rehabilitative services at the skilled or intermediary level of care. After the first 90 days, the state Medicaid Program will reimburse institutional long-term care services as Fee-For Service. Prior authorization is required.

Laboratory and X-ray

Quest Laboratory, Laboratory Corporation of America (LabCorp), and in-network local and regional laboratories are our preferred clinical laboratories. For a list of in-office laboratory testing covered by Absolute Total Care, please refer to the Physician's Office Lab Testing Payment Policy found on our website absolutetotalcare.com on the Provider Resources page at. Absolute Total Care will also pay for X-ray services ordered by a physician that are medically necessary. CT, PET, and MRI scans require prior authorization through NIA, whether the service is rendered in a provider's office or in an NIA-contracted, free-standing facility. NIA can be reached by calling 1-866-433-6041.

Oncology Services

Absolute Total Care will pay for medically necessary oncology and hematology services. Oncology-related chemotherapeutic drugs and support services require prior authorization through New Century Health. New Century Health services are for in-network oncology/hematology providers submitting requests for members who are not pregnant and are 19 years of age and older. All chemotherapy treatment plan requests (with Cancer Diagnosis) must be prescreened by New Century Health at <https://my.newcenturyhealth.com>. New Century Health can also be reached by calling 1-888-999-7713.

Orthopedic and Spinal Surgery Services

Absolute Total Care will pay for medically necessary orthopedic and spinal surgery services. Orthopedic and spinal surgery services require prior authorization through TurningPoint Healthcare Solutions. TurningPoint Healthcare Solutions can be reached by calling 1-844-245-6513.

Outpatient Hospital Services

Absolute Total Care will pay for medically necessary outpatient hospital visits.

Physician Services

Absolute Total Care will pay for medically necessary physician services. All symptomatic visits to physicians or physician extenders within the scope of their licenses are covered benefits. Physician services, including services while admitted in the hospital, outpatient hospital department, in a clinic setting, or in a physician's office, are covered benefits. Physician services are unlimited.

Podiatry Services

Members may receive medically necessary podiatry care from an in-network PCP or a podiatrist. Prior authorization is required.

Rehabilitative Therapy Services for Members with Special Needs (Non-Hospital Based)

These services are available to members age 20 years and younger with special needs (e.g., sensory impairments, mental retardation, physical disabilities, developmental disabilities and delays) and to

members of any age who are enrolled in the Mental Retardation/Related Disabilities Waiver and the Head and Spinal Cord Injury Waiver. For services to be covered, the member must have an Individualized Family Service Plan (IFSP), an Individualized Education Plan (IEP), or a valid treatment plan and be referred by either the South Carolina Department of Disabilities and Special Needs, SCDHEC, the South Carolina School for the Deaf and the Blind, or a local Education Agency (School District).

Frequency limits: Combined total of 105 hours (420 units) per year (July 1 through June 30). Prior authorization is required through NIA when services are rendered in an outpatient setting. Initial evaluations do not require an authorization.

Rural Health Clinic Services (RHCs)

Healthcare services furnished by RHCs are cost-based reimbursed through encounter codes at an all-inclusive rate that reflects the cost of the services (up to the current year's Medicaid CAP).

Therapy

Therapy can be provided in the following situations as ordered by a physician:

- In a long-term care facility (payment is included in the Medicaid payment to the long-term care facility, inpatient only);
- As a home health service;
- As an inpatient in a hospital, which has a certified therapy department, and therapy may be continued at the hospital as an outpatient if ordered by the doctor;
- Therapy may be continued at the hospital as an outpatient if ordered by a doctor **and** the member is age 20 years and younger;
- By an independent therapist for members age 20 years and younger; and
- When prior approved by a sponsoring agency, such as the Department of Education or SCDHEC.

Therapy provided in an Inpatient and observation status, acute rehab hospital inpatient, home health, assisted living, and inpatient and outpatient skilled nursing facility settings require prior authorization from Absolute Total Care. Prior authorization is required through NIA when services are rendered in an outpatient setting.

Covered Therapy Services for Members Over Age 20

If members are over 20 years old and **not** on a Fee-For-Service waiver, reimbursement is allowed for physical, occupational, and speech therapies performed under the following guidelines. The member's record must substantiate at least **one** of the following requirements for therapy:

- The attending physician prescribes therapy in the plan of treatment during an inpatient hospital stay and therapy continues on an outpatient basis until that plan of treatment is concluded.
- The attending physician prescribes therapy as a direct result of outpatient surgery.
- The attending physician prescribes therapy to avoid an inpatient hospital admission.

Therapy provided in an Inpatient and observation status, acute rehab hospital inpatient, home health, assisted living, and inpatient and outpatient skilled nursing facility settings require prior authorization

from Absolute Total Care. Prior authorization is required through NIA when services are rendered in an outpatient setting.

Vision Care

Adult vision is not covered by Absolute Total Care. Members who are 20 years and younger are covered for one vision test during any 12-month period, eyewear repairs as needed, and/or one eyewear replacement within a 12 consecutive month period.

If you have any questions about these services or additional benefits, please contact Provider Services at 1-866-433-6041.

Mental Health, Alcohol, and Other Drug Abuse

Developmental Evaluation and Testing Services

Absolute Total Care is responsible for reviewing, authorizing, and reimbursing for certain Developmental Evaluation Services (DES). These are medically necessary, comprehensive, neurodevelopmental, and psychological developmental, evaluation, and treatment services for members between the ages of 0 to 21 years. These members have or are suspected of having a developmental delay, behavioral or learning disability, or other disabling condition. DES are provided only at the Developmental Evaluation Centers located:

1. Within the Department of Pediatrics at the Greenville Hospital in Greenville;
2. At the University School of Medicine, University of South Carolina in Columbia; or
3. At the Medical University of South Carolina in Charleston.

Mental/Behavioral Health Initial Evaluation and Management

Medical doctors and private psychiatrists may bill 90801 and 90802 in office services to Absolute Total Care. A maximum of one psychiatric assessment every six months is allowed for adult and child members.

Mental/Behavioral Health Services

All inpatient and outpatient behavioral health services including South Carolina DAODAS, Psychiatric Residential Treatment Services (PRTF), Autism Spectrum Disorder (ASD), and Rehabilitative Behavioral Health Services (RBHS) are authorized and provided by behavioral health clinicians. Call 1-866-534-5976 for information on how to obtain prior authorization for these services.

Psychiatric Services

Psychiatric services to include assessment, treatment plan development and modification, and therapy services are covered services for all members.

Services Not Covered by Absolute Total Care

Some services are not covered by Absolute Total Care. These services include:

- Abortions (elective) except in the case of rape, incest, or when medically necessary to save the mother's life (must have supporting SCDHHS Abortion Statement Form signed by physician and medical documentation);
- Acne treatment for members who are 19 years of age and older;

- Acupuncture and biofeedback services;
- Care for the treatment of obesity unless medically necessary;
- Care provided by any provider, when the insured has other primary coverage at the time of the episode of care;
- Care or supplies that are not medically necessary;
- Comfort items in the hospital (e.g., TV or telephone);
- CLTC Waiver Home and Community Based Services (covered by Medicaid Fee-for-Service);
- Cosmetic surgery/procedures;
- Court-ordered testing;
- Dental services (covered by Medicaid Fee-for-Service/DentaQuest);
- Experimental care, such as drugs and supplies, not covered by Medicaid;
- Experimental or investigational procedures, technologies, or supplies;
- Hospice care covered by Medicaid Fee-for-Service;
- Infertility services;
- Transplants, except corneal, covered by Medicaid Fee-for-Service;
- Paternity testing;
- Reversal of sterilization services;
- Routine adult vision services and hardware;
- Services to find cause of death;
- Sex therapy or marriage therapy;
- Shots to travel outside of the country; and
- Sterilization of a person who is age 21 years or younger, mentally incompetent, or institutionalized.

Out-of-Network Services and Providers

Absolute Total Care realizes that there may be times when a member needs care from a provider who is not in Absolute Total Care's network. Absolute Total Care will approve medical services to an out-of-network provider if these services:

- Are not available by an in-network provider;
- Can't be provided in-network in a timely manner; and/or
- Are medically necessary, as determined by the member's physician and Absolute Total Care.

Prior authorization may be required based on service. Based on Absolute Total Care's contract with SCDHHS, services provided by an out-of-network provider for which Absolute Total Care has adequate network coverage may be reimbursed at a rate below the Medicaid fee schedule.

Value-Added Benefits for Absolute Total Care Members

Absolute Total Care has developed a package of value-added services for its members that includes benefits in addition to the SCDHHS covered services. The value-added services were designed to improve members' well-being, encourage responsible and prudent use of healthcare benefits, and enhance the cost effectiveness of the South Carolina Medicaid Program.

Engage PeopleCare (Nurse Advice Line)

Our members have many questions about their health, PCPs, and access to emergency care. Absolute Total Care offers a nurse advice line service to encourage members to talk with their PCP and to promote education and preventive care.

Our nurse advice line is a 24-hour nurse line for members. Our registered nurses provide basic health education and nurse triage, as well as answer questions about urgent or emergency access. The nurses often answer questions about pregnancy and newborn care. In addition, members with chronic problems like asthma or diabetes are referred to Care Management for education and encouragement to improve their health.

Members may use our nurse advice line to request information about providers and services available in their community after Absolute Total Care's hours and on holidays. PCPs can utilize our nurse advice line to verify eligibility any time of the day. The nurse advice line staff is conversant in both English and Spanish, and they can offer the Language Line for additional translation services. Each nurse documents their calls in a web-based data system using Barton Schmitt, M.D. triage protocols for pediatrics and McKesson proprietary products to perform triage services for adults. These protocols are widely used in nurse call centers and have been reviewed and approved by physicians from around the country.

We provide this service to support your practice and offer access to a registered nurse for our members every day. If you have any additional questions, please call Provider Services or the nurse advice line at 1-866-433-6041.

Start Smart for Your Baby® (Start Smart)

Start Smart is Absolute Total Care's special program for women who are pregnant. This program provides educational materials that tackle the most critical issues affecting the child's development during pregnancy. Start Smart offers a preventive approach that encourages prenatal education for the expectant mother in an effort to achieve the best possible outcome. Start Smart encourages pregnant women to keep their prenatal care appointments, educates members and their families about pregnancy, identifies members who may be at high risk for developing complications, and provides support in dealing with medical, socioeconomic, and environmental issues that may contribute to complications or inhibit a member's ability to receive optimal healthcare.

Identifying pregnant members as early as possible, providing them with adequate prenatal care and guidance, as well as addressing complications as effectively as possible should result in improved outcomes for both the mother and the newborn baby.

My Health Pays™ Member Rewards

Earning My Health Pays™ Reward Dollars

After a member completes a healthy activity, Absolute Total Care will add the reward dollars they have earned directly to their My Health Pays™ Visa® Prepaid Card.

We will mail their My Health Pays™ Visa Prepaid Card to them after they complete their first healthy activity. They can keep earning My Health Pays™ rewards by completing more healthy activities. Their rewards will be added to their card once we are notified.

How to Earn

Members can earn My Health Pays™ rewards for things like screenings, preventive care, and more. Visit absolutetotalcare.com for more details.

My Health Pays™ rewards can help members pay for:

- Everyday items at Walmart*.
- Utilities.
- Transportation.
- Telecommunications.
- Childcare services.
- Education.
- Rent.

Members can log in to their secure member account to see their My Health Pays™ rewards balance.

**This card may not be used to buy alcohol, tobacco, or firearms products.*

This card is issued by The Bancorp Bank pursuant to a license from Visa U.S.A Inc. The Bancorp Bank; Member FDIC. Card cannot be used everywhere Visa debit cards are accepted. See Cardholder Agreement for complete usage restrictions.

Funds expire 90 days after termination of insurance coverage or 365 days after date reward was earned, whichever comes first.

Non-Emergency Transportation Services

Absolute Total Care members may need transportation to or from a Medicaid-covered service to receive medically necessary care. Non-emergency transportation is only available to eligible recipients who cannot obtain transportation on their own through other available means, such as by family, friends, or community resources.

The South Carolina Medicaid transportation program provides non-emergency transportation for members through ModivCare. If a member needs to schedule a ride for non-emergency reasons, the member should call the call the ModivCare reservation line for the region that the member's county is located in. Regions and telephone numbers can be found

<https://memberinfo.logisticare.com/scmember> and Absolute Total Care's Member Handbook. They will schedule the ride for the member. The member may also call Member Services at 1-866-433-6041 if they are having difficulty scheduling a ride for a medical appointment. Member Services will assist the member in contacting the transportation broker to arrange transportation.

Member Benefit Grid and Copays

Benefits	Coverage	Limits	Copay
Abortion	Covered	Prior approval required. Abortions are covered only when there is written physician certification of the need for the abortion.	N/A

Acne	Covered	Ages 18 and younger. Limits apply.	\$0

OB Ultrasounds	Covered	Maternal-fetal medicine provider: No limitation. All other providers: Three ultrasounds per pregnancy.	\$0
Office Visits (PCP/Specialists) (Well and Sick Visits)	Covered	None	\$0
Oncology-related chemotherapeutic drugs and support services	Covered	Prior approval required.	\$3.40 for self-administered drugs only.
Orthopedic and spinal surgery	Covered	Prior approval required.	\$0
Orthotics and Prosthetics	Covered	Prior approval may be required.	\$0
Outpatient Hospital (Non-Emergency)	Covered	Prior approval may be required.	\$3.40 per date of service.
Outpatient Surgery	Covered	Prior approval may be required.	\$3.40
Pain Management Services	Covered	Prior approval may be required.	\$0
Podiatry Services	Covered	Prior approval may be required.	\$0
Power Wheelchairs	Covered	Every seven years, limited accessories covered. Prior approval required.	\$0
Prescriptions	Covered	Prior approval may be required. Subject to age and quantity limits per Preferred Drug List (PDL).	\$3.40 \$0 copay for select medications on the PDL for asthma, COPD, smoking cessation, and diabetes.
Pulmonary Rehab	Covered	None	\$0
Reversal of Sterilization	Not Covered	N/A	N/A
Smoking Cessation Products	Covered	Quantity per PDL.	\$0 copay for smoking cessation medications on PDL.

Sterilization	Covered	Completed Consent for Sterilization Form (Form HHS-687) required.	\$0
Rehabilitative Therapies for Children, Non-Hospital Based	Covered	Ages 20 and younger, combined total of 105 hours (420 units) per year (July 1 through June 30). Prior approval required.	\$0
Transplants	Covered	Corneal transplants are covered. Pre- and post-transplant services are covered for other transplants covered by Medicaid Fee-for-Service when coordinated by Absolute Total Care.	\$0
Vaccines/Immunizations (Adult)	Covered	Only if medically necessary.	\$0
Vaccines/Immunizations (Children)	Covered	Ages 21 and younger.	\$0
Vision – Routine Screening (Children)	Covered	Ages 20 and younger. One pair of glasses every 12 months. One replacement set every 12 months.	\$0
X-Ray/Radiology Services	Covered	Prior approval required for certain services.	\$0

Absolute Total Care Members Exempt from Copayments:

From birth to the date of their 19th birthday

Living in long-term care facilities

During pregnancy

South Carolina Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Services and Standards

EPSDT is a program of comprehensive preventive health services available to Absolute Total Care recipients through the month of their 21st birthday. The program is designed to maintain health by providing early intervention to discover and treat health problems. EPSDT is a preventive program that combines diagnostic screening and medically necessary follow-up care for dental, vision, and hearing examinations for eligible members.

EPSDT services include:

- Outreach and informing;
- Screening in accordance with the SCDHHS and the American Academy of Pediatrics periodicity schedule;
- Tracking compliance with EPSDT requirements; and

- Diagnostic and treatment services.

Standards for providing EPSDT services are described and are included in the SCDHHS MCO Policies and Procedures Manual.

PCPs are required to perform EPSDT medical check-ups in their entirety and at the required intervals. All components of exams must be documented and included in the medical record of each EPSDT-eligible member. Initial well-child exams are to be completed within 90 days of the initial effective date of membership and within 24 hours of birth for all newborns.

The components of these visits are as follows:

- **Comprehensive Health and Developmental History:** Including assessment of both physical and mental health development.
- **Comprehensive Unclothed Physical Exam.**
- **Appropriate Immunizations:** According to the schedule established by the Advisory Committee on Immunization Practices (ACIP) for pediatric vaccines.
- **Blood Lead Screening:** For children from the ages of six months through 72 months. A Lead Screening Questionnaire should be completed at the time of each routine office visit for children in this age group. All children are considered at-risk and must be screened for lead poisoning. CMS requires that all children receive a screening blood lead test at 12 and 24 months of age. Children between 36 and 72 months of age must receive a screening blood lead test if they have not been previously screened for lead poisoning. A blood lead test must be used when screening Medicaid-eligible children. A blood lead test result equal to or greater than 5ug/dl obtained by capillary specimen must be confirmed using a venous blood sample.
- **Anemia Screening and Laboratory Tests:** as indicated, as well as is appropriate for age and risk factors (including a hemocrit or hemoglobin test performed between six and nine months of age and at least once during adolescence for menstruating females).
- **Blood Pressure:** Blood pressure should be measured on children ages three and over at each screening.
- **Anticipatory Guidance/Health Education:** Health education is a required component of screening services and includes anticipatory guidance. At the outset, the physical and/or dental screening provides the initial context for providing health education. Health education and counseling to both parents (or guardians) and children is required and is designed to assist in understanding what to expect in terms for the child's development and to provide information about the benefits of healthy lifestyles and practices as well as accident and disease prevention.
- **Vision Screening:** Vision should be assessed at each screening. In infants, the history and subjective findings of the ability to regard and reach for objects, the ability to demonstrate an appropriate social smile and to have age appropriate interaction with the examiner is sufficient. At ages four and older, objective measurement using the age appropriate Snellen Chart, Goodlite Test, or Titmus Test should be done and recorded. If needed, a referral should be made to an ophthalmologist or optometrist.
- **Dental Screening:** A general assessment of the dental condition (teeth and/or gums) is obtained on all children, including fluoride treatments. Children with their first tooth eruption and age two and older should be referred to a dentist.

- **Topical Fluoride Varnish:** The best practices of the American Academy of Pediatrics recommend that children up to three years old who are at high risk for dental caries should receive fluoride varnish application in their PCPs office during their EPSDT visit two times per year (once every six months) and in their dental home two times per year (once every six months). The American Dental Association has established a new Current Dental Terminology (CDT) procedure code, D1206, for the application of topical fluoride varnish. The PCP will bill this procedure to Absolute Total Care on the CMS 1500 Claim Form.
- **Hearing Screening:** A hearing test is required appropriate to the child's age and educational level. For the child under age four, hearing is determined by whatever method is normally used by a provider, including, but not limited to, a hearing kit. For the child over age four, an audiometer, if available, is recommended. If needed, an appropriate referral should be made to a specialist. It is recommended that high-risk neonates be evaluated with objective measures, such as brain stem evoked response testing, prior to discharge from the hospital nursery.
- **Other Necessary Healthcare:** States must provide other necessary healthcare, diagnosis services, treatment and other measures described in section 1905(a) of the Social Security Act to correct or ameliorate defects and physical and mental illnesses and conditions discovered by the screening services.
- **Periodic Screening:** EPSDT beneficiaries are eligible to receive 20 screenings in 21 years of life. Screening ranges are determined according to age of the child and, in some circumstances, when last screened. EPSDT visits are recommended at the ages listed below.

Infancy	Early Childhood	Late Childhood and Adolescence
Birth	12 months	Ages 5 years and up through the month of the child's 21st birthday – every year
3-5 days	15 months	
One month	18 months	
Two months	24 months	
Four months	30 months	
Six months	3 years	
Nine months	4 years	

Neonatal exams are identified from hospital claim and not billable as an EPSDT screening.

Preventive health is a major principal on which MCOs are based, measured, and held accountable. Absolute Total Care supports its contracted PCPs to encourage their Absolute Total Care members to participate in the state of South Carolina preventive care program, EPSDT. Absolute Total Care will send reminders of the need for a well-child examination to all EPSDT-eligible members. A copy of Absolute Total Care's EPSDT Program description can be found at absolutetotalcare.com in the Provider Manuals and Forms section.

Immunizations

Children must be immunized during medical check-ups according to the current ACIP Schedule.

Absolute Total Care encourages all members who are age 18 years or younger to be immunized by their PCP unless medically contraindicated or against parental religious beliefs. Providers shall report all immunizations to the State Immunization Information System (SIIS) administered by SCDHEC.

Since immunizations are a required component of EPSDT screening services, an assessment of the child's immunization status should be made at each screening and immunizations administered as appropriate. If the child is due for an immunization, it must be administered at the time of the screening. However, if illness precludes immunization, the reason for delay should be documented in the child's record. An appointment should be given to return for administration of immunization at a later date.

PCPs should participate with the Vaccines for Children (VFC) Program. If a provider does not routinely administer immunizations as part of their practice, they should refer the child to the county health department, but must maintain a current record of the child's immunization status.

For PCPs, providing immunizations to our members is one of the most important services rendered. The VFC Program provides PCP practices with the pediatric vaccines needed to administer this service.

Providers will be required to include CPT coding on all administered VFC supplied vaccine products. The appropriate vaccine CPT code must be included on the CMS 1500 Claim Form when filing for reimbursement for the administration of these vaccines. **Submitted claims are denied when the appropriate CPT code is not billed.**

Blood Lead Screening

Absolute Total Care EPSDT Guidelines include Lead Screening/Assessment for children from the ages of six months through 72 months. A Lead Screening Questionnaire should be completed at the time of each routine office visit for children in this age group.

All Medicaid children are considered at increased risk for having elevated blood lead levels. A blood lead test must be used when screening Medicaid-eligible children. An elevated BLL is considered anything ≥ 5 ug/dL. A blood lead test result equal to or greater than 5 ug/dL obtained by capillary specimen (finger stick) must be confirmed using a venous blood sample. According to CMS policy, all Medicaid children require a blood lead test at 12 and 24 months of age. Children between 36 and 72 months of age must receive a screening blood lead test if they have not been previously screened for lead poisoning.

Domestic Violence

Absolute Total Care's membership may include individuals at risk for becoming victims of domestic violence. Thus, it is especially important that providers are vigilant in identifying these members. Member Services can help members identify resources to protect them from further domestic violence.

South Carolina residents who are victims of domestic violence may be referred to the National Domestic Violence Hotline, at 1-800-799-SAFE (7233) for information about local domestic violence programs and shelters within the state of South Carolina.

Providers should report all suspected domestic violence as described. **State law requires reporting by any person if he or she has "reasonable cause to believe that a child has been subjected to child abuse or acts of child abuse."** Such reporting can be done anonymously. Report any injuries from

firearms and other weapons to the police. Providers should report any suspected child abuse or neglect immediately to South Carolina Department of Social Services Child Protective Services in the appropriate county.

General Billing Guidelines

Physicians, other licensed health professionals, facilities, and ancillary providers contract directly with Absolute Total Care for payment of covered services.

It is important that providers ensure Absolute Total Care has accurate billing information on file. Please confirm with Provider Services that the following information is current in our files:

- **Provider name** (as noted on his/her current W-9 Form);
- **Provider National Provider Identifier (NPI)**;
- **Physical location address** (as noted on current W-9 Form);
- **Billing name and address** (if different); and
- **Tax Identification Number (TIN).**

Providers must bill with their NPI number in box 24J. Absolute Total Care will return or reject claims, when billing information does not match the information that is currently in our files.

Claims missing the requirements in bold will be returned and a notice will be sent to the provider, creating payment delays. Such claims are not considered “clean” and therefore cannot be entered into the system.

We recommend that providers notify Absolute Total Care in advance of changes pertaining to billing information. Please submit this information on a W-9 Form. Changes to a provider’s TIN and/or address are **not** acceptable when conveyed via a claim form.

Claims eligible for payment must meet the following requirements:

- The member is effective on the date of service;
- The service provided is a covered benefit under the member’s contract on the date of service; and
- Referral and prior authorization processes were followed.

Payment for service is contingent upon compliance with referral and prior authorization policies and procedures, as well as the billing guidelines outlined in this manual.

Providers must submit all claims and encounters within 365 days from the date of service, unless Absolute Total Care or its vendors created the error. The filing limit may be extended for newborn claims. Claims where Absolute Total Care is the secondary payer and where the eligibility has been retroactively received by Absolute Total Care have up to a maximum of 365 days.

Absolute Total Care must comply with state and federal requirements mandating provider-preventable conditions as a condition of payment, as well as the prohibition against payment for provider-preventable conditions as set forth in 42 CFR 434.6(a)12 (2016, as amended) 42 CFR 438.3(g) (2016, as amended) and 42 CFR 447.26 (2016, as amended).

All adjustments and corrections must be received and resolved within 365 days from the date of service to be considered for payment.

Electronic Claims Submission

Network providers are encouraged to participate in Absolute Total Care's Electronic Claims/Encounter Filing Program. The plan has the capability to receive electronic professional, institution, or encounter transaction. In addition, it has the ability to generate an electronic remittance advice known as an Explanation of Payment (EOP). Providers can submit electronically using a clearinghouse or Absolute Total Care's Secure Provider Portal. For more information on electronic filing, contact:

Absolute Total Care
C/o Centene EDI Department
Telephone: 1-800-225-2573, ext. 25525
Email: EDIBA@centene.com

EDI Payer Numbers:

68069 - Emdeon/WebMD/Envoy/Payerpath
42772 - Relay Health/McKesson

Visit our website at absolutetotalcare.com for a complete list of payer ID numbers.

All providers are required to follow Health Insurance Portability and Accountability Act of 1996 (HIPAA) 5010 format for claim submissions and all CPT and National Correct Coding Initiative (NCCI) guidelines. **Absolute Total Care timely filing is within 365 days from the date of service.**

Providers that bill electronically must monitor their error reports and evidence of payments to ensure all submitted claims and encounters appear on the reports. Providers are responsible for correcting any errors and resubmitting the affiliated claims and encounters.

National Provider Identifier (NPI)

Absolute Total Care requires all claims to be submitted with a provider's NPI. Absolute Total Care will require this on all electronic and paper claim submissions. Providers must send a copy of the confirmation letter from the enumerator to Absolute Total Care to ensure that the NPI is loaded correctly into our claims payment database. Providers may register for an NPI and download forms at <https://nppes.cms.hhs.gov/NPPES/>.

Claims Submission

Absolute Total Care's preferred method of claim submission is through Electronic Data Interchange (EDI). If you must submit a paper claim, please send to the address below and follow the imaging requirements listed below.

All claims sent to the wrong address will cause a delay in processing. Please ensure your claims are sent to the below addresses for proper and timely processing.

--	--

If you are experiencing problems with electronic claims submission, please email our EDI Team for assistance at ediba@centene.com. Absolute Total Care partners with Payformance to provide an innovative web-based solution for Electronic Funds Transfers (EFTs) and Electronic Remittance Advices (ERAs). To learn more and register, please call 1-877-331-7154 and press 1, or email providersupport@payspanhealth.com.

Imaging Requirements

Absolute Total Care uses an imaging process for claims retrieval. To ensure accurate and timely claims capture, please observe the following claims submission rules:

Do's

- **Do** use the correct P.O. Box number.
- **Do** submit all claims in a 9" x 12" or larger envelope.
- **Do** type all fields completely and correctly.
- **Do** use black or blue ink only.
- **Do** submit on a proper and current form (CMS 1500 or UB-04 Claim Form).

Don'ts

- **Don't** submit handwritten claim forms.
- **Don't** use red ink on claim forms.
- **Don't** circle any data on claim forms.
- **Don't** add extraneous information to any claim form field.
- **Don't** use highlighter on any claim form field.
- **Don't** submit photocopied claim forms (black and white).
- **Don't** submit carbon copied claim forms.
- **Don't** submit claim forms via fax.

Clean Claim Definition

Absolute Total Care uses SCDHHS's definition of a clean claim. A clean claim means a claim received by Absolute Total Care for adjudication in a nationally accepted format in compliance with standard

coding guidelines and which requires no further information, adjustment, or alteration by the provider of the services in order to be processed and paid by Absolute Total Care.

What Is An Encounter Versus A Claim?

You are required to submit an encounter or claim for each service that you render to an Absolute Total Care member.

- If you are the PCP for an Absolute Total Care member and receive a monthly capitation amount for services, you must file a “proxy claim” (also referred to as an “**encounter**”) on a CMS 1500 Claim Form for each service provided. Since you will have received a pre-payment in the form of capitation, the “proxy claim” or “**encounter**” is paid at zero dollar amounts. **It is mandatory that your office submit encounter data.** Absolute Total Care utilizes the encounter reporting to evaluate all aspects of quality and UM, and it is required by the state of South Carolina and CMS.
- A **claim** is a request for reimbursement either electronically or by paper for any medical service. A claim must be filed on the proper form, such as a CMS 1500 or UB-04 Claim Form. A claim will be paid or denied with an explanation for the denial. For each claim processed, an EOP will be mailed to the provider who submitted the original claim.

Procedures for Filing a Claim/Encounter Data

Absolute Total Care encourages all providers to file claims/encounters electronically. See the Claim Submission Options section of this Provider Manual for more information on how to initiate electronic claims/encounters. Please remember the following when filing your claim/encounter:

- All documentation **must** be legible.
- PCPs and all participating providers must submit claims or encounter data for every member visit, even though they may receive a monthly capitation payment.
- Providers must ensure that all data and documents submitted to Absolute Total Care are accurate, complete, and truthful to their best knowledge, information, and belief.
- All claims and encounter data must be submitted on either Claim Form CMS 1500, UB-04, or by electronic media in an approved format.
- Review and retain a copy of the error report that is received for claims that have been submitted electronically, then correct any errors and resubmit with your next batch of claims.
- Providers must submit all claims and encounters within 365 days of the date of service.
- Coordination of Benefits claim must be submitted with the appropriate primary payer’s EOP information. Contact your clearinghouse or our EDI Department at ediba@centene.com or by calling 1-800-225-2573, ext. 25525.
- Any provider for covered services must never bill Absolute Total Care members unless the criterion listed under the Billing the Member section of this Provider Manual is met.
- In a workers’ compensation case for which Absolute Total Care is not financially responsible, the provider should directly bill the employer’s workers’ compensation carrier for payment.

Claim Payment

Absolute Total Care will pay 90% of clean claims within 30 days of receipt and 99% of clean claims within 90 days of receipt. It is the provider’s responsibility to cross check their submitted claims audit

report to processed claims EOPs from Absolute Total Care. Also, this is available at absolutetotalcare.com, but requires registration to access the Secure Provider Portal.

Claim Adjustments (Corrections/Resubmissions) and Reconsiderations

A **claim adjustment (correction/resubmission)** is a request to change the initial claim:

- To correct a billing error (invalid or incorrect information) in the initial claim submission.
 - To reprocess a previous partially denied claim. Adjustment requests related to partially denied claims should be submitted in their entirety as originally filed.

A **claim reconsideration** is submitted when a provider disagrees with how a clean or adjusted claim was processed. Examples include but are not limited to:

- Denials related to code edit or authorization. Requests related to code edit or authorization denial require medical records and must accompany the request for reconsideration.
- Payment amount which does not align with expected payment.

Submitters have **365 calendar days** from the date of service (as confirmed on the EOP) to file a timely adjustment or reconsideration request via EDI, on the Secure Provider Portal at absolutetotalcare.com, or by mail to the address below. Requests submitted via mail must include a completed Provider Claim Adjustment/Reconsideration Form, which can be found on our website at absolutetotalcare.com, and supporting documentation.

Submit claim adjustments and reconsiderations to the following address:

Absolute Total Care
P.O. Box 3050
Farmington, MO 63640-3821

Absolute Total Care shall process and finalize all claim adjustment and reconsideration requests to a paid or denied status normally within **30 business days** of receipt of the adjustment or reconsideration request. Any response to approved adjustments will be provided by way of check with accompanying explanation of payment.

If a provider has a question or is not satisfied with the information they have received related to a claim, they can contact Provider Services at 1-866-433-6041.

Provider Dispute System

Providers may contact Absolute Total Care with concerns in-person or by telephone, email, or writing, and will receive instruction on how to file a formal provider dispute. However, to be classified a provider dispute these concerns must be submitted in writing and include the Provider Dispute Form and supporting documentation.

To submit a provider dispute please download and complete the Provider Dispute Form from the Provider Resources section on our website at absolutetotalcare.com. The provider can consolidate

disputes of multiple claims that involve the same or similar payment, regardless of the number of individual patients or payment claims.

The completed Provider Dispute Form must be submitted to Absolute Total Care within **60 calendar days** from the receipt of notice of an adverse action. Any disputes received outside of this time frame will not be reviewed.

Absolute Total Care will fully investigate the provider dispute and render a decision within 30 calendar days of the receipt of the provider dispute. If additional information is required to render a decision on the dispute, Absolute Total Care may extend the time frame by 15 calendar days based on mutual agreement of the provider with Absolute Total Care.

If you wish to file a dispute please send the Provider Dispute Form and supporting documentation to:

Absolute Total Care
Provider Disputes
P.O. Box 3050
Farmington, MO 63640-3821

Fee Schedule and Code Updates

Updates to billing-related codes or fee schedules (e.g., CPT, HCPCS, ICD, DRG, and revenue codes) shall become effective on the date (“Code Change Effective Date” or “Fee Change Effective Date”) that is the latter of:

- The first day of the month following 30 days after publication by the governmental agency having authority over the applicable product of such governmental agency’s acceptance of such code/fee updates; or
- The effective date of such code/fee updates, as determined by such governmental agency.
Claims processed prior to the Code/Fee Change Effective Date will not be reprocessed to reflect any code updates.

Common Billing Errors

In order to avoid rejected claims or encounters always remember to:

- Submit all J-codes with the appropriate National Drug Control (NDC) number and format.
- Bill the primary diagnosis in the first field following NCCI guidelines.
- Use **specific** and **current** ICD, CPT or HCPCS codes. Avoid the use of non-specific or “catch- all” codes (i.e., 99070). Out-of-date codes will be denied.
- Submit all claims/encounters with the proper provider number.
- Submit all claims/encounters with the member’s complete Medicaid ID number.
- Verify other insurance information entered on claim.

Code Auditing and Editing

Absolute Total Care utilizes NCCI software for automated claims coding verification and to ensure that Absolute Total Care is processing claims in compliance with general industry standards. We have partnered with Health Care Insight (HCI) to ensure all claims are processed and paid according to the NCCI guidelines.

NCCI code auditing software takes into consideration the conventions set forth in the healthcare insurance industry, such as CMS policies, current health insurance, and specialty society guidelines, and the American Medical Association's CPT Assistant Newsletter.

Using a comprehensive set of rules, the code auditing software provides consistent and objective claims review by:

- Accurately applying coding criteria for the clinical areas of medicine, surgery, laboratory, pathology, radiology, and anesthesiology as outlined by the American Medical Association's current CPT Manual.
- Evaluating the CPT and HCPCS codes submitted by detecting, correcting, and documenting coding inaccuracies including, but not limited to, unbundling, up coding, fragmentation, duplicate coding, invalid codes, and mutually exclusive procedures.
- Incorporating Historical Claims Auditing functionality which links multiple claims found in a member's claims history to current claims to ensure consistent review across all dates of service.

The following provides conditions where code-auditing software will make a change on submitted codes:

Age/Gender

Submitting codes inappropriate for the member's age or gender because of the nature of the procedure.

Example:

Code	Description	Status
99382	Initial preventive medicine evaluation and management of an individual including a comprehensive history, a comprehensive examination, counseling/anticipatory guidance/risk factor reduction interventions, and the ordering of appropriate laboratory/diagnostic procedures, new member; early childhood (age one through four years)	All (one through four years) Review (over four years)

Explanation:

- Procedure code 99382 is appropriate for a member who is one through four years of age.
- Procedure code 99382 is recommended for review for a member whose age exceeds four years.

Duplicate Services

Submitting the same procedure more than once on the same date for services that cannot or are normally not performed more than once on the same date.

Example: Excluding a duplicate CPT.

Code	Description	Status
72010	Radiologic exam, spine, entire, survey study, anteroposterior and lateral	Allow
72010	Radiologic exam, spine, entire, survey study, anteroposterior and lateral	Disallow

Explanation:

- Procedure code 72010 includes radiologic examination of the lateral and anteroposterior views of the entire spine that allow views of the upper cervical vertebrae, the lower cervical vertebrae, the thoracic vertebrae, the lumbar vertebrae, the sacrum, and the coccyx.
- It is clinically unlikely that this procedure would be performed twice on the same date of service.

Example: Recommended replacement.

Code	Description	Status
22114	Partial excision of vertebral body, for intrinsic bony lesion, without decompression of spinal cord or nerve root(s), single vertebral segment; lumbar	Allow
22114	Partial excision of vertebral body, for intrinsic bony lesion, without decompression of spinal cord or nerve root(s), single vertebral segment; lumbar	Disallow and replace
22116	Partial excision of vertebral body, for intrinsic bony lesion, without decompression of spinal cord or nerve root(s), single vertebral segment; each additional vertebral segment (list separately in addition to code for primary procedure)	Add and allow

Explanation:

- Procedure code 22114 is used to report a single vertebral segment excision.
- When submitted twice on a single date of service, the second submission of procedure code 22114 is not recommended for separate reporting and procedure code 22116 is recommended as an alternate code to be added to the claim to indicate the excision of additional vertebral segments.

Evaluation and Management (E&M) Services

Submission of an E&M service either within a global surgery period or on the same date of service of another E&M service.

Global Surgery

Procedures that are assigned a 90-day global surgery period are designated as *major* surgical procedures. Procedures that are assigned a 10-day or zero-day global surgery period are designated as *minor* surgical procedures.

- E&M services, submitted with major surgical procedures (90-day) and minor surgical procedures (10-day), are not recommended for separate reporting because they are part of the global service.
- Effective for service dates in 2003, E&M services, submitted with minor surgical procedures (zero-day), are *not* recommended for separate reporting or reimbursement because these services are part of the global service.

Example: E&M service submitted with minor surgical procedures.

Code	Description	Status
11000 DOS= 01/23/03	Debridement of extensive eczematous or infected skin; up to 10% of body surface	Allow
99213 DOS= 01/23/03	Office or other outpatient visit for the evaluation and management of an EST patient, which requires at least two of these three key components: <ol style="list-style-type: none"> 1. An expanded problem focused history; 2. An expanded problem focused examination; and/or 3. Medical decision making of low complexity. Counseling and coordination of care with other providers or agencies are provided consistent with nature of problem(s) and the member's and/or family's needs; problem(s) are low/moderate severity; physicians spend 15 minutes face-to-face with member and/or family	Disallow

Explanation:

- Procedure code 11000 (0-day global surgery period) is identified as a minor procedure.
- Procedure code 99213 is submitted with the same date of service.
- When a minor procedure is performed, the evaluation and management service is considered part of the global service.

Example: Global surgery period.

Code	Description	Status
27447 DOS= 05/20/02	Arthroplasty, knee, condyle and plateau; medial and lateral compartments with or without patella resurfacing (total knee arthroplasty)	Allow

99213 DOS= 06/02/02	<p>Office or other outpatient visit for the evaluation and management of an EST patient, which requires at least two of these three key components:</p> <ol style="list-style-type: none"> 1. An expanded problem focused history; 2. An expanded problem focused examination; and/or 3. Medical decision making of low complexity. <p>Counseling and coordination of care with other providers or agencies are provided consistent with nature of problem(s) and the member's and/or family's needs; problem(s) are low/moderate severity; physicians spend 15 minutes face-to-face with member and/or family</p>	Disallow
------------------------	---	----------

Explanation:

- Procedure code 27447 has a global surgery period of 90 days.
- Procedure code 99213 is submitted with a date of service that is within the 90-day global period.
- When a substantial diagnostic or therapeutic procedure is performed, the evaluation and management service is included in the global surgical period.

Same Date of Service

One evaluation and management service is recommended for reporting on a single date of service.

Example: Same date of service.

Code	Description	Status
99215	<p>Office or other outpatient visit for the evaluation and management of an established member, which requires at least two of these three key components:</p> <ol style="list-style-type: none"> 1. A comprehensive history; 2. A comprehensive examination; and/or 3. Medical decision making of high complexity. <p>Counseling and/or coordination of care with other providers or agencies are provided consistent with nature of problem(s) and member's and/or family's needs. Usually, problem(s) are moderate/high severity. Physicians spend 40 minutes face-to-face with member and/or family.</p>	Allow
99242	<p>Office consultation for a new or established member, which requires these three key components:</p> <ol style="list-style-type: none"> 1. An expanded problem focused history; 2. An expanded problem focused examination; and/or 3. Straightforward medical decision-making. <p>Counseling/coordination of care with other providers or agencies is provided consistent with nature of problem(s) and member's/family's needs. Presenting problem(s) are low severity. Physicians spend 30 minutes face-to-face with member/family.</p>	Disallow

Explanation:

- Procedure code 99215 is used to report an evaluation and management service provided to an established member during a visit.
- Procedure code 99242 is used to report an office consultation for a new or established member
- Separate reporting of an evaluation and management service with an office consultation by a single provider indicates a duplicate submission of services. Interventions, provided during an evaluation and management service, typically include the components of an office consultation.

Note: Modifiers

Modifiers are added to the main service or procedure code to indicate that the service has been altered in some way by a specific circumstance.

Modifier -24: Used to report an unrelated E&M service by the same physician during a post-operative period.

Modifier -25: Used to report a significant, separately identifiable E&M service by the same physician on the same day of a procedure.

When modifiers -24 and -25 are submitted with an E&M service on the same date of service or during the post-operative period by the same physician, the E&M service is questioned and a review of additional information may be required. Send medical records and a copy of the Explanation of Benefits (EOB) to the corrected/disputed claim address for review by HCl.

Modifier -79: Used to report an unrelated procedure or service by the same physician during the post-operative period.

When Modifier -79 is submitted with an evaluation and management service on the same date of service or during the post-operative period by the same physician, separate reporting of the evaluation and management service is allowed.

Modifier -26 (Professional Component): If modifier -26 is not valid for the submitted procedure code, the procedure code is not recommended for separate reporting.

When the place of service is an inpatient setting, modifier -26 is recommended to be appended to validate procedure codes submitted without modifier -26.

When the place of service is an outpatient setting, procedure codes submitted with modifier -26 are recommended for separate reporting.

Example:

Code	Description	Status
78278 POS=Inpatient	Acute gastrointestinal blood loss imaging	Disallow and replace

78278-26 POS=Inpatient	Acute gastrointestinal blood loss imaging	Add and allow
---------------------------	---	---------------

Explanation:

- Procedure code 78278 is valid with modifier -26.
- Modifier -26 will be added to procedure code 78278 when submitted without modifier -26.

Modifier -50 (Bilateral Procedures): To report a bilateral procedure, bill the first procedure with no modifier, and the second procedure with a -50 modifier. Report on two lines instead of one. A bilateral procedure billed with only one line will result in underpayment. Codes with bilateral descriptions may not be billed with a -50 modifier.

Example:

Code	Description	Status
69436	Tympanostomy (requiring insertion of ventilating tube), general anesthesia	Allow
69436	Tympanostomy (requiring insertion of ventilating tube), general anesthesia	Disallow and replace
69436-50	Tympanostomy (requiring insertion of ventilating tube), general anesthesia	Add and allow

Explanation:

- Procedure code 69436 was performed bilaterally and submitted twice without modifier -50.
- The second submission of procedure code 69436 is not recommended for separate reporting, but modifier -50 is recommended to be added to this procedure code to indicate a bilateral performance of the procedure.

Modifier -51 (Multiple Procedures): Modifier -51 edit identifies a secondary procedure code when more than one surgical procedure is performed.

Example:

Code	Description	Status
51820	Cystourethroplasty with unilateral or bilateral ureteroneocystostomy	Allow
51840-51	Anterior vesicourethropepy, or urethropepy (e.g., Marshall-Marchetti-Krantz, Burch); simple	Allow
51920-51	Closure of vesicouterine fistula	Allow
58140-51	Myomectomy, excision of leiomyomata of uterus, single or multiple (separate procedure code); abdominal approach	Allow

Explanation:

- Procedure code 51820 is determined to be the primary procedure performed because it is the most clinically intensive procedure for this clinical scenario.
- Procedure codes 51840, 58140, and 51920 are determined to be secondary procedure codes and modifier -51 is recommended to be appended to each.

Modifier -80, -81, and -82: The assistant surgeon edit identifies procedures not requiring an assistant-at-surgery; many surgical procedures require aid in prepping and draping the member, monitoring visualization, keeping the wound clear of blood, holding and positioning the member, assisting with wound closure, and/or casting (if required). This assistance does not require the expertise of a surgeon a qualified nurse, orthopedic technician or resident physician can provide the necessary assistance.

Example:

Code	Description	Status
42820-81	Tonsillectomy and adenoidectomy; under age 12	Disallow

Explanation:

- Procedure code 42820 is not recommended for assistant surgeon reporting because a skilled nurse or surgical technician can function as the assistant in the performance of this procedure.

Modifier -LT and -RT (Left, Right): When submitted with a procedure code, identify procedures that are performed on the left and right side of the body; when a valid bilateral procedure is submitted more than one time and either -LT or -RT is appended to of the codes, the modifier -50 will be added to the remaining procedure code to indicate bilateral performance of the procedure

Example:

Code	Description	Status
28400-LT	Closed treatment of calcaneal fracture; without manipulation	Allow
28400	Closed treatment of calcaneal fracture; without manipulation	Disallow and replace
28400-50	Closed treatment of calcaneal fracture; without manipulation	Add and allow

Explanation:

- The first submission of procedure code 28400 is submitted with modifier -LT, indicating performance of the procedure on the left side of the body.

- The second submission of procedure code 28400 does not include a modifier indicating which side of the body the procedure was performed. As a result of this omission, modifier -50 is added to procedure code 28400 to indicate bilateral performance of the procedure.

Place of Service

Services billed with an incorrect place of service for the procedure billed.

Example:

Code	Description	Status
96410	Chemotherapy administration, intravenous; infusion technique, up to one hour	Disallow for POS=inpatient

Explanation:

- Procedure code 96410 is not routinely administered by a physician in an inpatient setting and is not recommended for separate reporting.
- Provision of this service in an office or outpatient facility place of service is recommended for separate reporting.

Global Edit

Procedure(s) submitted that are performed at the same time as a more complex primary procedure and is clinically integral to the successful outcome of the primary procedure.

Example:

Code	Description	Status
47562	Laparoscopy, surgical; cholecystectomy	Allow
49000	Exploratory laparotomy, exploratory celiotomy with or without biopsy(s) (separate procedure)	Disallow

Explanation:

- Procedure code 49000 is routinely performed for most abdominal procedures and is considered clinically integral to performing the primary surgical procedure 47562.

Unbundling

Submission of a comprehensive code along with incidental procedure codes that are an inherent part of performing the global procedure code. The unbundled procedure code(s) will be rebundled to the comprehensive procedure code.

Example:

Code	Description	Status
------	-------------	--------

20102	Exploration of penetrating wound (separate procedure); abdomen/flank/back	Disallow
44120	Enterectomy, resection of small intestine; single resection and anastomosis	Allow

Explanation:

- Procedure code 20102 is an exploratory procedure for a penetrating wound that when performed with procedure code 44120 represents unbundling because exploration is considered to be a component of the more comprehensive procedure code 44120.
- Unbundled procedure codes are re-bundled and paid as a single procedure.

Fragmentation

Billing all incidental codes or itemizing the components of procedures separately when a more comprehensive code is available.

Example:

Code	Description	Status
82465	Cholesterol, serum, total	Replaced
83718	Lipoprotein, direct measurement, high density cholesterol	Replaced
84478	Triglycerides	Replaced
80061	Lipid panel	Added

Explanation:

- Procedure code 82465, 83718 and 84478 are part of a more comprehensive code 80061; the definition of procedure code 80061 includes procedures codes 82465, 83718 and 84478.
- Fragmented procedure codes are replaced and paid as the single comprehensive procedure.

The code auditing software is updated regularly to incorporate the most recent medical practices, coding practices, annual changes to the AMA's CPT-4 Manual, and other industry standards.

Absolute Total Care uses only standard diagnosis and procedure codes to comply with HIPAA Transactions and Code Sets Standards.

Code-Editing Assistant

A web-based code auditing reference tool designed to "mirror" how Absolute Total Care's code auditing product(s) evaluate code combinations during the auditing of claims is available for participating providers. This allows Absolute Total Care to share with our contracted providers the claim auditing rules and clinical rationale we use to pay claims.

This tool offers many benefits:

- *Prospectively* access the appropriate coding and supporting clinical edit clarifications for services **before** claims are submitted.
- *Proactively* determine the appropriate code/code combination representing the service for accurate billing purposes.
- *Retrospectively* access the clinical edit clarifications on a denied claim for billed services after an EOP has been received.

The tool will review what was entered and will determine if the code or code combinations are correct based on the age, sex, location, modifier (if applicable), or other code(s) entered. However, this is not a guarantee of payment for the claim combination submitted.

Billing Codes

It is important that providers bill with codes applicable to the date of service on the claim. Billing with obsolete codes will result in a potential denial of the claim and a consequent delay in payment. Submit professional claims with current and valid CPT, HCPCS or ASA, and ICD codes. Submit institutional claims with valid revenue codes **and** CPT or HCPCS (when applicable), ICD codes, and DRG codes (when applicable).

For dates of service on or before **September 30, 2015**, Absolute Total Care recognizes the medical terminology as defined in the CPT, Fourth Edition, published by the American Medical Association; and the diagnosis codes as defined in the International Classification of Diseases, Ninth Edition (ICD-9), and provided by the U.S. National Center for Health Statistics.

For dates of service on or after **October 1, 2015**, Absolute Total Care recognizes the medical terminology as defined in the CPT, Fourth Edition, published by the American Medical Association; and the diagnosis codes as defined in the International Classification of Diseases, Tenth Edition (ICD-10), and provided by the U.S. National Center for Health Statistics.

Billing Forms

Providers submit claims using standardized claim forms whether filing on paper or electronically.

Submit claims for professional services and DME on a CMS 1500 Claim Form. The following areas of information on CMS 1500 Claim Forms are common submission requirements of a clean claim accepted for processing:

- Full member name;
- Member's date of birth;
- Valid member ID number;
- Appropriate NDC number for all J-codes;
- Appropriate Clinical Laboratory Improvement Amendments (CLIA) number for all laboratory services;
- Complete service level information:
 - o Date of service;
 - o Diagnosis;

- o Place of service;
- o Authorization number when appropriate;
- o Procedural coding (appropriate and current CPT and ICD codes); and
- o Charge information and units.
- Servicing provider's name, address, and Medicaid ID number;
- Provider's NPI;
- Provider's federal TIN; and
- All mandatory fields must be complete and accurate.

Submit claims for hospital-based inpatient and outpatient services as well as swing bed services on a UB-04 Claim Form.

Third-Party Liability

Third-party liability refers to any other health insurance plan or carrier (e.g., individual, group, employer- related, self-insured, self-funded, or commercial carrier, automobile insurance, and workers' compensation) or program that is, or may be, liable to pay all or part of the healthcare expenses of the member.

Except for BabyNet and Children's Rehabilitative Services, Medicaid is always the payer of last resort. Absolute Total Care providers shall make reasonable efforts to determine the legal liability of third parties to pay for services furnished to Absolute Total Care members. **The provider has 365 days from the date of service to submit first time claims. Denied claims for additional information may be submitted with the additional information needed within 365 days from the date of service for reimbursement consideration.**

If third-party liability coverage is determined after services are rendered, Absolute Total Care will coordinate with the provider to pay any claims that may have been denied for payment due to third-party liability.

Pay and Chase Obstetric (OB) Claims

Absolute Total Care will reimburse claims for maternity services and will follow the Pay and Chase Guideline. When a member has primary health insurance, Absolute Total Care will reimburse maternity services only as the primary carrier. However, Absolute Total Care has the right to pursue the primary insurance carrier to coordinate benefits. The pay and chase process will allow you to be paid upfront and decrease maternity denials surrounding other health insurance payments.

Billing the Member

Absolute Total Care reimburses only services that are covered, medically necessary services through Medicaid. Carved out services outlined earlier in this manual should be billed to the state Medicaid Fee-For-Service Program. **Providers may not bill Absolute Total Care members for covered services.** A provider may only bill an Absolute Total Care member if the provider obtains written consent from the member as outlined in the Member Acknowledgment Statement section of this Provider Manual.

Member Acknowledgement Statement

A provider may bill a member for a claim denied as not being medically necessary, not a covered benefit, or the member has exceeded the program limitations for a particular service only if the provider has counseled the member of their out-of-pocket responsibilities and obtained a signed member acknowledgement statement to bill for non-covered or non-medically necessary services **prior** to the service(s) being rendered.

A member acknowledgement statement must include all of the following:

- The cost of each service.
- The member's acknowledgement of responsibility for payment statement:
"I understand that, in the opinion of [provider's name], the services or items that I have requested to be provided to me on [dates of service] may not be covered by my Medicaid plan, Absolute Total Care, as being reasonable and medically necessary for my care. I understand that Absolute Total Care through its contract with the SCDHHS determines the medical necessity of the services or items that I request and receive. I also understand that I am responsible for payment of the services or items I request and receive, if these services or items are determined not to be reasonable and medically necessary for my care."
- The member's signature.

Providers must keep signed member acknowledgement statements.

Balance Billing Prohibition

Members cannot be balance billed by any provider for authorized services, including in-network services and authorized out-of-network services. This includes services that are covered and services not covered unless a Member Acknowledgement Statement has been signed by both the provider and Absolute Total Care's member for non-covered services prior to rendering said services. Please reference the Member Acknowledgement Statement section of this Provider Manual for requirements. Providers may not bill members for such services if the Member Acknowledgement Statement is not obtained prior to rendering said services.

Balance billing is prohibited under the terms of your provider agreement with Absolute Total Care and in Absolute Total Care's Provider Manual.

- Members cannot be billed for the difference between the provider's usual and customary charge and the provider's contracted rate.
- Members cannot be billed for the difference between the amount billed by the provider and the amount paid by Absolute Total Care.
- Absolute Total Care members cannot be billed, nor can any deposits be collected from Absolute Total Care members, for any amounts other than allowable copayment, which cannot exceed the copayment amount allowed by SCDHHS.
- If a member does not keep a scheduled appointment, you are not permitted to bill the member or Absolute Total Care for the missed appointment.

Hospital Claims

Absolute Total Care will process and reimburse for inpatient hospital claims that qualify for additional outlier reimbursement under SCDHHS guidelines as follows. This policy only affects inpatient hospitals claims that meet the following two criteria:

1. Claims that qualify for outlier reimbursement based on the billed amount; and
2. Claims with billed charges in excess of \$200,000.

It is Absolute Total Care's policy to request both an itemized bill and the patient's medical records for any inpatient claim that meets both criteria as detailed above. Upon receipt, these requested records will be reviewed for the appropriateness of all charges in accordance with the generally-accepted charging practices and NCCI Guidelines.

Eligible outlier claims will have their total claim reimbursement divided into two parts – the applicable DRG case rate and the potential calculated outlier portion. The DRG case rate will be calculated and released for payment immediately to the provider, but the outlier portion of the total reimbursement will be held until the requested documentation is received and reviewed in accordance with this policy. Once charges are reviewed and validated, the outlier portion of the reimbursement will be released and the total claims payment will have been adjudicated.

Forensic Review Process

- DRG+Outlier are paid and one line which doesn't impact payment is denied.
- A letter will be sent to you requesting both an itemized bill and the patient's medical records.
- The records are sent to the Claims Department, who will forward the claim and medical records to forensic review vendor, The Assist Group.
- The Assist Group reviews the claim and records and informs the Claims Department of the results of the review highlighting exceptions.
- The claim is adjusted based on the exceptions. You will be sent a second letter informing you of the status of the exceptions.

Emergency Room (ER) Claims

Absolute Total Care global period for ER claims is 24 hours. Authorization is not required for ER services.

Requirements for Network Participation

The enrollment, credentialing, and recredentialing processes exist to ensure that participating providers meet and remain compliant to the criteria established by Absolute Total Care, as well as government regulations and standards of accrediting bodies. **Failure of an applicant to provide adequate information to meet all criteria may result in termination of the application process.**

Note: In order to maintain a current provider profile, providers are required to notify Absolute Total Care of any relevant changes to their credentialing information in a timely manner.

Practitioners must submit at a minimum the following information when applying for participation with Absolute Total Care:

- Complete signed and dated Absolute Total Care Standardized Credentialing Form of Council for Affordable Quality Health Care (CAQH) Provider Data Form, the application must include the following:
 - Signed attestation of the correctness and completeness of the application, history of loss of license and/or clinical privileges, disciplinary actions, and/or felony convictions; lack of current illegal substance and/or alcohol abuse; mental and physical competence, and ability to perform the essential functions of the position, with or without accommodation.
- Copy of current malpractice insurance policy fact sheet that includes expiration dates, amounts of coverage and provider's name;
- Copy of current Federal Drug Enforcement Administration (DEA) Certificate;
- Copy of current State Controlled Substance Certificate for South Carolina;
- W-9 Form;
- Copy of Educational Commission for Foreign Medical Graduates (ECFMG) Certificate (if applicable);
- Copy of current unrestricted state license to practice in South Carolina;
- Evidence of Specialty/Board Certification (if applicable);
- Proof of highest level of education (certificate or letter certifying formal post-graduate training) if practitioner is not board certified;
- Copy of CLIA Certificate (if applicable);
- Ability to demonstrate enumeration by National Plan and Provider Enumeration System (NPPES), depicting the provider's unique NPI; and
- Nurse practitioners: current written protocol and name of preceptor (supervising) physician.

Organizational providers must submit at a minimum the following information when applying for participation with Absolute Total Care:

- Complete Credentialing Application;
- Copy of Current General Liability Insurance Policy Fact Sheet that includes expiration dates and amounts of coverage;
- Other applicable current state/federal/licensures (i.e., CLIA, DEA, South Carolina Controlled Substance Certificate, Pharmacy, or Department of Health);
- Copy of current accreditation/certification by a nationally recognized accrediting body or site evaluation results by a government agency if not accredited;
- Attestation of current professional liability coverage in the minimum amounts of \$1,000,000 per occurrence and \$3,000,000 aggregate;
- Copy of current CMS Certification, if applicable;
- W-9 Form; and
- Ability to demonstrate enumeration by NPPES, depicting the provider's unique NPI.

Absolute Total Care will review for the following information:

- Current, unrestricted state license to practice, if license is required to practice
- Education and training and/or board certification;
- Reports of malpractice settlements via the National Practitioner Data Bank (NPDB)
- Current DEA Registration;
- Hospital privileges in good standing at a participating Absolute Total Care hospital;

- Justification of gaps of six months or greater within the past five years of work history;
- Medicare/Medicaid-specific exclusions and/or determination if disbarment, suspension, or other exclusion from participation in federal procurement activities via Office of Inspector General (OIG), System of Award Management (SAM), South Carolina Excluded Providers List (SC EPLS), and South Carolina Termination for Cause List;
- Potential fraudulent activity by ensuring provider is not listed on the Social Security Administration's Death Master File;
- Proof of professional and/or general liability coverage in an amount accepted by Absolute Total Care; and
- Proof of collaborative agreement, protocols, or other written authorization with a licensed physician (if applicable).

Note: All providers must be enrolled in the South Carolina Healthy Connections Medicaid Program. Providers must be credentialed and contracted prior to accepting or treating members. PCPs cannot accept member assignments until they are fully credentialed and have an executed contract.

Once the application is completed, Absolute Total Care's Credentialing Committee will render a final decision on acceptance following its next regularly scheduled meeting. Recredentialing is performed at least every 36 months.

Nurse Practitioners as a Primary Care Provider (PCP)

Medicaid MCOs may utilize nurse practitioners to provide healthcare services under the following conditions:

- To ensure nurse practitioners are able to perform the healthcare services allowed within the parameters of the South Carolina Nurse Practice Act (State Statute Section 40-33), Absolute Total Care must:
 - Validate nurse practitioner status;
 - Confirm the nurse practitioner's ability to provide the allowed services as evidenced by written protocols; and
 - Verify there is a process in place to accommodate medically necessary hospital admissions.
- Supervising physicians (preceptors) for practices staffed only by nurse practitioners must also be enrolled in the MCO's network and must have an active license. MCOs must:
 - Authenticate the formal relationship between the nurse practitioner and supervising physician (i.e., preceptor); and
 - Contract with any off-site supervising physician who is not already enrolled in the plan's network.

Note: If the supervising physician will not enroll, the nurse practitioner-only practice cannot be enrolled into or, if already enrolled, cannot remain in the MCO's network.

- Members shall not be automatically assigned to a nurse practitioner; however, members may choose a nurse practitioner to provide the healthcare services allowed with their scope of services. Nurse practitioners submitted on provider files to the enrollment broker must be coded to allow member choice only.

Credentialing Committee

The Credentialing Committee has the responsibility to establish and adopt, as necessary, criteria for provider participation and termination and direction of the credentialing procedures, including provider participation, denial, and termination.

Committee meetings are held monthly and more often as deemed necessary.

Certification and Licensing Requirements

A set of minimum level criteria established by Absolute Total Care will be used to determine physicians', other professional providers', and organizational providers' participation. The minimum criteria include:

- **Ambulance Transportation**
 - Must be licensed by SCDHEC.
- **Ambulatory Surgical Centers**
 - Must be surveyed and licensed by SCDHEC and certified by CMS.
- **Certified Nurse Midwife/Licensed Midwife**
 - A certified nurse midwife must be licensed to practice as a registered nurse by the Board of Nursing under the South Carolina Department of Labor, Licensing, and Regulations, and certified as a nurse midwife by the Division of Competency Assessment.
 - A certified nurse midwife must be licensed by SCDHEC.
 - A certified nurse midwife's services are limited by practice protocol.
- **Certified Registered Nurse Anesthetist (CRNA)/Anesthesiologist Assistant (AA)**
 - The Council on Certification of Nurse Anesthetists or the Council on Recertification of Nurse
 - Anesthetists must license a CRNA to practice as a registered nurse in South Carolina in which he or she is rendering services and currently certified.
 - A CRNA is authorized to perform anesthesia services only and may work independently or under the supervision of an anesthesiologist.
 - An AA must be licensed to practice as an AA in South Carolina.
- **Dispensing Physician**
 - Must be licensed by the Board of Medical Examiners, under the South Carolina Department of Labor, Licensing, and Regulations.
- **ESRD Clinics**
 - Must be surveyed and licensed by SCDHEC and certified by CMS.
- **FQHCs**
 - Must have a Notice of Grant Award under 319, 330, or 340 of the Public Health Services Act and be certified by CMS.
 - Providers billing laboratory procedures must have a CLIA Certificate.
- **Home Health**
 - Must be surveyed and licensed by SCDHEC and certified by CMS.
- **Inpatient/Outpatient Hospitals**
 - Must be surveyed and licensed by SCDHEC and certified by CMS
- **Infusion Centers**
 - There are no licensing requirements or certification for infusion centers.
- **Laboratory Certification**

- In accordance with federal regulations, all laboratory-testing facilities providing services must have a CLIA Certificate of Waiver or a Certificate of Registration with CLIA identification number.
- Laboratories can only provide services that are consistent with their type of CLIA certification.
- **Long-Term Care Facilities/Nursing Homes**
 - Must be surveyed and licensed under state law and certified as meeting the Medicaid and Medicare requirements of participation by SCDHEC.
- **Mail-Order Pharmacy**
 - Must be licensed by the appropriate state board.
 - A special non-resident South Carolina permit number is required of all out-of-state providers. The Board of Pharmacy, under the South Carolina Department of Labor, Licensing and Regulations, issues such permits.
- **Mammography Services**
 - The United States Department of Health and Human Services, Public Health Services, and Food and Drug Administration must certify facilities providing screening and diagnostic mammography services.
- **Medical Professionals**
 - Individual medical professionals must all have a current unrestricted license and be certified to practice by the appropriate board/licensing body. Medical professionals include, but are not limited to physicians, physician assistants, podiatrists, chiropractors, private therapists, and audiologists.
- **Mobile Ultrasound**
 - No license or certification required.
- **Nurse Practitioner and Clinical Nurse Specialist**
 - A registered nurse must complete an advanced formal education program and be licensed and certified by the South Carolina Board of Nursing under the South Carolina Department of Labor, Licensing, and Regulations, or the appropriate medical board in South Carolina.
 - Services are limited by practice protocol.
- **Pharmacy**
 - Permit must be issued by the Board of Pharmacy under the South Carolina Department of Labor, Licensing, and Regulations.
- **Physician's Assistants**
 - A health professional that performs such tasks as approved by the State Board of Medical Examiners in a dependent relationship with a supervising physician or under direct personal supervision of the attending physician.
- **Physiology Labs**
 - Providers must be enrolled with Medicare.
- **Podiatrists**
 - Must be licensed by the Board of Podiatry Examiners, under the South Carolina Department of Labor, Licensing, and Regulations.
 - Providers billing laboratory procedures must have a CLIA Certificate.
 - Laboratories can only provide services that are consistent with their type of CLIA certification.
- **Portable X-ray**
 - Must be surveyed by SCDHEC and certified by CMS.
- **RHCs**

- Must be surveyed and licensed by SCDHEC and certified by CMS.
- Providers billing laboratory procedures must have a CLIA Certificate.
- Laboratories can only provide services that are consistent with their type of CLIA certificate.
- **Stationary X-ray**
 - SCDHEC registration.

Recredentialing

Absolute Total Care conducts the recredentialing process for providers at least every three years from the date of the initial credentialing decision. The purpose of this process is to identify any changes in the practitioner's licensure, sanctions, certification, competence, or health status, which may affect the ability to perform services the provider is under contract to provide. This process includes all practitioners (including PCPs and specialists), ancillary providers, and/or facilities previously credentialed to practice within Absolute Total Care's network.

Additionally, between credentialing cycles, a provider may be requested to supply current proof of any credentials (e.g., state licensure, malpractice insurance, DEA registration, or a copy of a Certificate of Cultural Competency Training) that have expiration dates prior to the next review process.

A provider's agreement may be terminated if at any time it is determined by Absolute Total Care's Board of Directors or the Credentialing Committee that credentialing requirements are no longer being met.

Practitioner Credentialing Rights

All practitioners requesting participation with Absolute Total Care have the right to review information obtained by Absolute Total Care to evaluate their credentialing and/or recredentialing application. This includes information obtained from any outside primary source such as the National Practitioner Data Bank and malpractice insurance carriers, as well as the South Carolina State Board of Medical Examiners and South Carolina State Board of Nursing for nurse practitioners. This does not allow a practitioner to review references, personal recommendations, or other information that is peer-review protected.

Should a practitioner believe any of the information used in the credentialing/recredentialing process to be erroneous, or should any information gathered as part of the primary source verification process differ from that submitted by a practitioner, they have the right to correct any erroneous information submitted by another party. To request release of such information, a written request must be submitted to Absolute Total Care's Credentialing Department. Upon receipt of this information, the practitioner will have 14 days to provide a written explanation detailing the error or the difference in information to Absolute Total Care. Absolute Total Care's Credentialing Committee will then include this information as part of the credentialing/recredentialing process.

Practitioners also have the right to request status of their credentialing/recredentialing application by contacting Provider Services.

Practitioner Appeal Rights

If your network participation is restricted, suspended, or terminated based on quality of care or service, you have the right to appeal the disciplinary action. You may request an appeal by submitting a written request within 30 days from receipt of notification.

Quality Improvement (QI) Program

Absolute Total Care's culture, systems, and processes are structured around its mission to improve the health of all enrolled members. The QAPI Program utilizes a systematic approach to quality using reliable and valid methods of monitoring, analysis, evaluation, and improvement in the delivery of healthcare provided to all members, including those with special needs. This systematic approach to quality improvement provides a continuous cycle for assessing the quality of care and services in such areas as preventive health, acute and chronic care, over/under utilization, continuity and coordination of care, patient safety, and administrative and network services.

Absolute Total Care recognizes its legal and ethical obligation to provide members with a level of care that meets recognized professional standards and is delivered in the safest, most appropriate settings. To that end, Absolute Total Care will provide for the delivery of quality care with the primary goal of improving the health status of its members. Where the member's condition is not amenable to improvement, Absolute Total Care will implement measures to prevent any further decline in condition or deterioration of health status or provide for comfort measures as appropriate and requested by the member. This will include the identification of members at risk of developing conditions, the implementation of appropriate interventions, and the designation of adequate resources to support the interventions. Whenever possible, Absolute Total Care's QAPI Program supports these processes and activities that are designed to achieve demonstrable and sustainable improvement in the health status of its members.

Program Structure

Absolute Total Care's Board of Directors oversees development, implementation, and evaluation of the QAPI Program and has the ultimate authority and accountability for oversight of the quality of care and services provided to members.

The QIC is Absolute Total Care's senior level and network physicians committee accountable directly to the Board of Directors. The purpose of the QIC is to provide oversight and direction in assessing the appropriateness of care and service delivery and to continuously enhance and improve the quality of care and services provided to members. This is accomplished through a comprehensive, plan-wide system of ongoing, objective, and systematic monitoring; identification, evaluation, and resolution of process problems; the identification of opportunities to improve member outcomes; and the education of members, providers, and staff regarding the QI, UM, and Credentialing programs both at aggregate and by line of business. The QIC is supported by the Member Advisory Committee, Credentialing Committee, Peer Review Committees, HEDIS Steering Committee, and the Member and Provider Satisfaction Work Groups.

Absolute Total Care recognizes the integral role of practitioner involvement in the success of its QAPI Program. Practitioner involvement in various levels of the process is highly encouraged through provider representation. Absolute Total Care encourages PCP, behavioral health, pediatrics, OB/GYN, specialist, and allied health practitioner representation on key quality committees such as,

but not limited to, the QIC, Credentialing Committee, Peer Review Committee, and select ad-hoc committees.

Quality Improvement (QI) Program Goals

Absolute Total Care's primary QI Program goal is to ensure that Absolute Total Care's members have access to the highest quality of healthcare services that is also responsive to their health needs and able to improve their health outcomes.

Quality Improvement (QI) Program Scope

The scope of the QAPI Program is comprehensive and addresses both the quality and safety of clinical care and the quality of service provided to Absolute Total Care's members as defined by the South Carolina Medicaid Program. Absolute Total Care incorporates all demographic groups, lines of business, benefit packages, care settings, and services in its QI activities including preventive care, emergency care, primary care, specialty care, acute care, short-term care, and ancillary services. Absolute Total Care's QAPI Program monitors the following:

- Acute and chronic care management;
- Behavioral healthcare services;
- Clinical quality initiatives;
- Compliance with member confidentiality laws and regulation;
- Compliance with preventive health and clinical practice guidelines;
- Continuity and coordination of care;
- Delegated entity oversight;
- Department performance and service;
- Member and provider cultural competency;
- Marketing practices;
- Member enrollment and disenrollment;
- Member grievance and appeal system;
- Member satisfaction;
- Patient safety;
- Medical record documentation;
- Pharmacy services;
- Provider and Absolute Total Care's after-hours telephone accessibility;
- Provider appointment availability and accessibility;
- Provider network adequacy and capacity;
- Provider satisfaction;
- Quality of care review;
- Selection and retention of providers (credentialing and recredentialing); and
- UM, including under- and over-utilization.

Additional information on the QI Program is available online at absolutetotalcare.com. Providers may also call Provider Services at 1-866-433-6041 to request a hard copy of QI Program documents.

Interaction With Functional Areas

The QI Department maintains strong working relationships with key functional areas within the health plan such as Provider Network Services, Member Services and Connections, UM, Regulatory

Compliance, and the Grievance and Appeals Coordinator(s). QI is integrated throughout Absolute Total Care and represents the strong commitment to quality of care and services for members.

- **Provider Network Services**, such as Provider Services and Contracting and the QI Department work together to verify that clinical materials distributed to providers are understandable and useful, and that providers understand the members' rights and responsibilities and treat enrolled members accordingly. These departments also coordinate efforts for appropriate access and availability through ongoing monitoring.
- **Members Services, MemberConnections, and the QI staff** collaborate in relation to Member Satisfaction Survey activities, to include performance improvement projects. The QI, Member Services, and MemberConnections departments work collaboratively to maintain performance data-related to EPSDT outreach activities and any other QI activities related to member services functions, including call center functions, are tracked, trended, and used as a tool to identify opportunities for performance improvement, as appropriate.
- **UM Department** provides UM, care management, and disease- focused services to enrolled members. UM staff identifies and refers quality concerns to the QI Department for investigation and recommends benefit enhancements and participates in QI activities and projects.
- **Regulatory Compliance and the QI Department** work together to ensure that Absolute Total Care's initiatives comply with state contract and accreditation requirements for National Committee for Quality Assurance (NCQA).
- **Grievance and Appeals coordinator(s) and Provider Services** work closely with the QI Department to ensure that:
 - Any grievance related to a quality-of-care issue is promptly investigated;
 - Grievances and second-level reviews of grievances and administrative reviews are handled timely;
 - Data collection and reporting is in compliance with relevant contractual and regulatory requirements; and
 - Reporting to appropriate QI committees occurs.

Performance Improvement Process

Absolute Total Care's QIC reviews and adopts an annual QAPI Program Description and QI Work Plan based on managed care Medicaid appropriate industry standards. The QIC adopts traditional quality, risk, UM approaches to problem identification with the objective of identifying improvement opportunities. As part of this approach, the plan president or designee, and the medical director, in conjunction with the QI Department, determine the scope and frequency of QI initiatives (e.g., clinical and non-clinical performance improvement projects and focus studies). Most often, initiatives are selected based on data that indicates the need for improvement in a particular clinical or non-clinical area, and includes targeted interventions that have the greatest potential for improving health outcomes or the service. Other initiatives will be selected to test an innovative strategy. Each initiative topic will reflect distinctive regional emphasis on populations and cultures. Once a QI topic is selected, the QI Department, in conjunction with specific functional areas as appropriate, will present the proposed QI initiative to the QIC for approval. The QIC will select those initiatives that have the greatest potential for improving health outcomes or the quality of service delivered to the plan's members and network providers.

Performance improvement projects, focused studies, and other QI initiatives are designed and implemented in accordance with principles of sound research design and appropriate statistical analysis. Results of these studies are used to evaluate the appropriateness and quality of care and services delivered against established standards and guidelines for the provision of that care or service. Each QI initiative is also designed to allow the plan to monitor improvement over time.

The development and selection of clinical performance improvement projects are the responsibility of the QIC due to its clinical representation. The QIC continues to monitor progress of clinical performance improvement projects. Absolute Total Care's QAPI Program allows for continuous performance of QI activities through analysis, evaluation, and improvement in the delivery of healthcare provided to all members, and has established mechanisms to track issues over time.

Annually, Absolute Total Care develops a QI Work Plan for the upcoming year. The QI Work Plan serves as a working document to guide quality improvement efforts on a continuous basis. The QI Work Plan integrates QI activities, reporting, and studies from all areas of the organization (clinical and service) and includes timelines for completion and reporting to the QIC as well as requirements for external reporting. Studies and other performance measurement activities and issues to be tracked over time are scheduled in the QI Work Plan.

The QI Work Plan is used by the QI Department to manage projects. Also, it is used by the QICs, QI sub-committees, and Absolute Total Care Board of Directors to monitor progress. The QI Work Plan is modified and enhanced throughout the year.

At any time, Absolute Total Care providers may request information on Absolute Total Care's QI Program, including a description of the QAPI Program and a report on the plan's progress in meeting the QAPI Program goals, by contacting Absolute Total Care's QI Department.

Feedback on Physician Specific Performance

As part of the QI process, performance data on each provider is reviewed and evaluated and may be used for QI activities. The Credentialing Committee and/or other committees involved in the QI may do this. This review of provider specific performance data may include, but is not limited to:

- Site evaluation results including medical record audit, appointment availability, after-hours access, cultural proficiency, and in-office waiting time;
- Preventive care, including well-child exams, immunizations, lead screening, cervical cancer screening, breast cancer screening and screening for detection of chronic diseases, such as diabetes and kidney disease;
- Prenatal care;
- Member complaint and grievance data;
- UMN data including referrals/1000 and bed days/1000 reports;
- Sentinel events and/or adverse outcomes; and
- Compliance with clinical practice guidelines.

Healthcare Effectiveness Data and Information Set (HEDIS)

HEDIS is a set of standardized performance measures developed by the NCQA, which allows comparison across health plans. HEDIS gives purchasers and consumers the ability to distinguish between health plans based on comparative quality instead of simply cost differences. HEDIS reporting is a required

part of the SCDHHS contract. Through HEDIS, Absolute Total Care is accountable for the timeliness and quality of healthcare services (e.g., acute, preventive, and mental health) delivered to its diverse membership.

HEDIS consists of 20+ effectiveness of care type measures as well as access to care and use of services measures for which the health plan contractually reports rates to the state of South Carolina based on claims and/or medical record review data.

As both the state and federal governments move toward a healthcare industry that is driven by quality, HEDIS rates are becoming more and more important, not only to the health plan, but to the individual provider as well. State purchasers of healthcare use the aggregated HEDIS rates to evaluate the effectiveness of a health insurance company's ability to demonstrate an improvement in preventive health outreach to its members. Physician-specific scores are being used as evidence of preventive care from primary care office practices. The rates then serve as a basis for physician incentive programs, such as 'pay for performance' and 'quality bonus funds.' These programs pay providers an increased premium based on scoring of such quality indicators used in HEDIS.

How are Healthcare Effectiveness Data and Information Set (HEDIS) rates calculated?

HEDIS rates can be calculated in two ways: administrative data or hybrid data.

Administrative data consists of claim or encounter data submitted to the health plan. Measures typically calculated using administrative data include an annual mammogram, annual chlamydia screening, annual Pap test, treatment of pharyngitis, treatment of URI, appropriate treatment of asthma, cholesterol management, antidepressant medication management, access to PCP services, and utilization of acute and mental health services.

Hybrid data consists of both administrative data and a sample of medical record data. Hybrid data requires review of a random sample of member medical records to abstract data for services rendered but that were not reported to the health plan through claims/encounter data. Accurate and timely claim/encounter data reduces the necessity of medical record review. Measures typically requiring medical record review include comprehensive diabetes care, control of high-blood pressure, immunizations, prenatal, care, and well-child care.

Who will be conducting the Medical Record Reviews for Healthcare Effectiveness Data and Information Set (HEDIS)?

Absolute Total Care will contract with a national medical record review vendor to conduct the HEDIS medical record reviews on its behalf. Medical record review audits for HEDIS are usually conducted March through May each year. At that time, you may receive a call from a medical record review representative if any of your patients are selected into HEDIS samples for Absolute Total Care. Your prompt cooperation with the medical record review representative is greatly needed and appreciated.

Absolute Total Care is pleased to be able to contract with a medical record review vendor that is able to offer several medical record correspondence options including confidential fax, traditional mail, or onsite copying by qualified staff. These various options allow you as the provider to choose the most convenient method for your practice.

As a reminder, protected health information that is used or disclosed for purposes of treatment, payment or healthcare operations is permitted by HIPAA Privacy Rules (45 CFR 164.506) and does not require consent or authorization from the member/patient. The medical record review vendor will sign a HIPAA-compliant Business Associate Agreement with Absolute Total Care, which allows them to collect protected health information on our behalf.

What can be done to improve my Healthcare Effectiveness Data and Information Set (HEDIS) scores?

- Understand the specifications established for each HEDIS measure.
- Submit claim/encounter data for each and every service rendered. All providers must bill (or report by encounter submission) for services delivered, regardless of contract status. Claim/encounter data is the most clean and efficient way to report HEDIS.
- If services are not billed or not billed accurately, they are not included in the calculation.
- Accurate and timely submission of claim/encounter data will positively reduce the number of medical record reviews required for HEDIS rate calculation.
- Chart documentation must reflect the services provided.

If you have any questions, comments or concerns related to the annual HEDIS project or the medical record reviews, please contact Absolute Total Care's QI Department.

Consumer Assessment of Healthcare Providers and Systems (CAHPS) Survey

CAHPS is a member satisfaction survey that is included as a part of HEDIS and NCQA accreditation. It is a standardized survey administered annually to members by an NCQA-certified survey vendor. The adult CAHPS survey provides information on the experiences of Medicaid members with the MCO services and gives a general indication of how well the MCO meets members' expectations. Global rating questions reflecting overall satisfaction include rating of members' personal doctor and rating of specialist seen most often. Composite scores summarize responses in key areas, such as getting care quickly, getting needed care, how well doctors communicate and shared decision-making. The child CAHPS survey looks at the same global and composite areas but provides information on parents' experience with Absolute Total Care services. Member responses to the CAHPS survey are used in various aspects of the QI Program, including monitoring of practitioner access and availability.

Provider Satisfaction Survey

Absolute Total Care conducts an annual provider satisfaction survey, which includes questions to evaluate provider satisfaction with our services, such as claims, communications, UM, and provider services. An external vendor conducts the survey. The vendor randomly selects participants, meeting specific requirements outlined by Absolute Total Care, and the participants are kept anonymous. We encourage you to respond in a timely matter to the survey as the results of the survey are analyzed and used as a basis for forming provider-related QI initiatives. Other surveys may be used for provider feedback as well.

Feedback of Aggregate Results

Aggregate results of studies and guideline compliance audits are presented to the QIC. Participating physician members of the QIC provide input into action plans and serve as a liaison with physicians in the community. Aggregate results are also published in the provider newsletter or a special provider mailing may be distributed.

At least quarterly, a provider relations specialist meets with PCPs and bi-annually with high volume specialists to review policies, guidelines, indicators, medical record standards, and provide feedback of audit/study results. These sessions are also an opportunity for providers to suggest revisions to existing materials and recommend priorities for further initiatives. When a guideline, indicator, or standard is developed in response to a documented quality of care deficiency, Absolute Total Care disseminates the materials through an in-service training program to upgrade providers' knowledge and skills. Absolute Total Care's Medical Director and Pharmacist conduct special training and meetings to assist physicians and other providers with QI and service improvement efforts.

Fraud, Waste, and Abuse

Absolute Total Care is committed to preventing, detecting, identifying, and reporting suspected cases of fraud, waste, and abuse and has a Fraud, Waste, and Abuse Program that complies with all state and federal laws. Absolute Total Care, in conjunction with its management company, Centene, successfully operates a Payment Integrity Department and a Special Investigations Unit. Absolute Total Care routinely conducts audits to ensure compliance with billing regulations. Our sophisticated code editing software performs systematic audits during the claims payment process. To better understand this system, please review the Billing and Claims section of this manual. The Special Investigations Unit performs retrospective audits, which in some cases result in taking actions against providers who commit fraud, waste, and and/or abuse. These actions include, but are not limited to:

- Remedial education and training to prevent the billing irregularity;
- More stringent utilization review;
- Recoupment of previously paid monies;
- Termination of provider agreement or other contractual arrangement;
- Civil and/or criminal prosecution; and
- Any other remedies available to rectify.

Some of the most common errors seen are:

- Unbundling of codes;
 - Up-coding services;
 - Add-on codes without primary CPT;
 - Diagnosis and/or procedure code not consistent with the patient's age/gender;
 - Use of exclusion codes;
 - Excessive use of units;
 - Misuse of benefits; and
- Claims for services not rendered.

If you suspect or witness a provider inappropriately billing or a member receiving inappropriate services, please call our anonymous and confidential hotline at 1-866-685-8664. Absolute Total Care

takes all reports of potential fraud, waste, and abuse very seriously and will investigate all reported issues.

Compliance Authority and Responsibility

Absolute Total Care's Vice President of Compliance and Regulatory Affairs has overall responsibility and authority for carrying out the provisions of the Compliance Program.

Absolute Total Care is committed to identifying, investigating, sanctioning, and prosecuting suspected fraud and abuse.

Absolute Total Care's provider network must cooperate fully in making personnel and/or subcontractor personnel available in person for interviews, consultation, grand jury proceedings, pre-trial conferences, hearings, trials, and in any other process, including investigations, at the provider's own expense.

These are the primary agencies to which incidents or practices of abuse and/or fraud are to be reported:

Absolute Total Care Fraud, Waste, and Abuse Reporting Contact Information

Mail: Absolute Total Care
Compliance Department
1441 Main Street, Suite 900
Columbia, SC 29201

Absolute Total Care Fraud and Abuse Hotline: 1-866-685-8664 (All calls are confidential.)

Email: Absolute Total Care.Compliance@centene.com

South Carolina Department of Health and Human Services (SCDHHS) Fraud, Waste, and Abuse Reporting Contact Information

Mail: SCDHHS Division of Program Integrity
P.O. Box 8206
Columbia, SC 29202

Telephone: 1-888-364-3224

Email: fraudres@scdhhs.gov

Absolute Total Care's staff is available to answer any questions or concerns you have regarding fraud, waste, and abuse. Please contact Provider Services at 1-866-433-6041 with any questions.

Member Services

Absolute Total Care is committed to providing its members with information about the health benefits that are available to them through Absolute Total Care. Absolute Total Care encourages members to take responsibility for their healthcare by providing basic information to assist with making decisions about their healthcare choices.

Absolute Total Care has developed targeted programs to address the needs of its members. Members may attend classes and receive specific disease management bulletins and treatment updates, appointment reminder cards, and informational mailings.

As a provider for Absolute Total Care, please remember that it is your obligation to identify any member who requires translation, interpretation, or sign language services. Absolute Total Care will pay for these services whenever you need them to effectively communicate with an Absolute Total Care member. Absolute Total Care members are not to be held liable for these services. To arrange for any of the above services, please call Provider Services at 1-866-433-6041.

MemberConnections® Program

Absolute Total Care recognizes the special needs of the population it serves. In response to these special needs, the MemberConnections program has been developed to address the challenges in member outreach, member education, and in members' understanding of the managed care health system.

MemberConnections is an educational and outreach program that brings our members a special, personal-touch service. The program is designed to promote preventive health practices and connect members to quality healthcare and community social services. By assigning MemberConnections representatives to individual members, MemberConnections creates a special link between members and Absolute Total Care providers.

MemberConnections representatives will:

- Coordinate health and literacy focused community events for members;
- Educate members about the managed care plan system in each area;
- Provide information to appropriate Absolute Total Care staff regarding member and community needs;
- Assist in the development and distribution of educational materials via telephone contact, mailings or home visits;
- Promote self-empowerment through the provision of community resources, information and education;
- Develop a community presence by attending community meetings;
- Introduce members to Absolute Total Care managed care and assist them in understanding their available options for preventive healthcare in Absolute Total Care's network and how to access services appropriately;
- Conduct home visits and monthly member orientation sessions for basic member education about Absolute Total Care and services available through Absolute Total Care's network;
- Participate in community activities centered on health education;
- Counsel members on accessing appropriate levels of care and non-compliance issues;

- Assist members in making appointments; and
- Advise members of their rights and responsibilities.

MemberConnections serves as a link between the member, PCP, and Absolute Total Care. This is encouraged through face-to-face activities, such as Absolute Total Care new mom visits and member orientation sessions.

Watch for activities that MemberConnections may be hosting in Absolute Total Care provider mailings. Participating Absolute Total Care providers can contact Member Services at 1-866-433-6041 to request that a home visit be completed when an Absolute Total Care member is found to be non-compliant, (e.g., missing medical appointments) with recommended medical treatment or has other identified issues or high-risk factors (e.g., frequent ER visits for routine medical care) that negatively impact the member's health status. Absolute Total Care members who require additional coaching to learn how to access the system appropriately can be referred by Absolute Total Care's PCP to have a visit from the MemberConnections representative.

Member Materials

Members will receive various pieces of information from Absolute Total Care through mailings, on our website, and through face-to-face contact. These materials include:

- Quarterly newsletters;
- Targeted disease management brochures;
- Provider directory;
- Nurse advice line information;
- ER information; and
- Member Handbook, which includes:
 - o Benefit information; and
 - o Member rights and responsibilities.

Providers interested in receiving any of these materials may visit absolutetotalcare.com or contact:

Member Services Department
 Telephone: 1-866-433-6041 (TTY: 711)
 Fax: 1-866-912-3610

Provider Bill Of Rights

Absolute Total Care providers shall be assured of the following rights:

- A healthcare professional, acting within the lawful scope of practice, shall not be prohibited from advising or advocating on behalf of a member who is his or her patient for the following:
 - o The member's health status, medical care, or treatment options, including any alternative treatment that may be self-administered ;
 - o Any information the member needs in order to decide among all relevant treatment options;
 - o The risks, benefits, and consequences of treatment or non-treatment;
 - o The member's right to participate in decisions regarding his or her healthcare, including the right to refuse treatment, and to express preferences about future treatment

decisions;

- To receive information on the grievance, appeal and State Fair Hearing procedures
- To have access to Absolute Total Care's policies and procedures covering the authorization of services;
- To be notified of any decision by Absolute Total Care to deny a service authorization request, or to authorize a service in an amount, duration, or scope that is less than requested;
- To challenge on behalf of Absolute Total Care members the denial of coverage of, or payment for, medical assistance;
- Absolute Total Care provider selection policies and procedures must not discriminate against particular providers that serve high-risk populations or specialize in conditions that require costly treatment; and
- To be free from discrimination for the participation, reimbursement or indemnification of any provider who is acting within the scope of his or her license or certification under applicable state law, solely on the basis of that license or certification.

Member Rights

Members are informed of their rights and responsibilities through the Member Handbook. Absolute Total Care providers are also expected to respect and honor members' rights and to post the Member Rights and Responsibilities in their offices.

Absolute Total Care members have the following rights:

- To be treated with respect and with due consideration for his or her dignity and the right to privacy and non-discrimination as required by law.
- To participate with their providers and practitioners in making decisions regarding their healthcare, including the right to refuse treatment.
- To be free from any form of restraint or seclusion used as a means of coercion, discipline, convenience, or retaliation, as specified in the federal regulations on the use of restraints and seclusion.
- To request and receive a copy of their medical records, and request that their medical record be amended or corrected.
- To receive healthcare services that are accessible, are comparable in amount, duration and scope to those provided under Medicaid Fee-For-Service and are sufficient in amount, duration, and scope to reasonably be expected to achieve the purpose for which the services are furnished.
- To receive services that are appropriate and are not denied or reduced solely because of diagnosis, type of illness, or medical condition.
- To receive all information including enrollment notices, information materials, instructional materials, available treatment options and alternatives in a manner and format that may be easily understood.
- To receive assistance from both SCDHHS and Absolute Total Care in understanding the requirements and benefits of the health plan.
- To receive oral interpretation services free of charge for all non-English languages, not just those identified as prevalent.
- To be notified that oral interpretation is available and how to access those services.

- To receive information about the basic features of managed care, which populations may or may not enroll in the program, and Absolute Total Care's responsibilities for coordination of care in a timely manner in order to make an informed choice.
- To receive information on the following:
 - *Benefits covered.*
 - *Procedures for obtaining benefits, including any authorization requirements*
 - *Cost-sharing requirements.*
 - *Service area.*
 - *Names, locations, telephone numbers of non-English language speaking Absolute Total Care providers, including at a minimum, PCPs, specialists, and hospitals.*
 - *Any restrictions on member's freedom of choice among network providers.*
 - *Providers not accepting new patients.*
 - *Benefits not offered by Absolute Total Care but available to members, and how to obtain those benefits, including how transportation is provided.*
- To receive a complete description of disenrollment rights at least annually.
- To receive notice of any significant changes in the Benefits Package at least 30 days before the intended effective date of the change.
- To receive information on the grievance, appeal, and State Fair Hearing procedures.
- To receive detailed information on emergency and after-hours coverage, including, but not limited to:
 - *What constitutes an emergency medical condition, emergency services and post-stabilization services.*
 - *That emergency services do not require prior authorization.*
 - *The process and procedures for obtaining emergency services.*
 - *The locations of any emergency settings and other locations at which providers and hospitals furnish emergency services and post-stabilization services covered under the contract.*
 - *The right to use any hospital or other setting for emergency care.*
 - *Post-stabilization care services rules in accordance with federal guidelines.*
- To expect their medical records and care be kept confidential as required by law.
- To receive Absolute Total Care's policy on referrals for specialty care and other benefits not provided by the member's PCP.
- To privacy of healthcare needs and information as required by federal law (Standards for Privacy of Individually Identifiable Health Information).
- To exercise these rights without adversely affecting the way Absolute Total Care, its providers, or SCDHHS treat the member.
- To allow or refuse their personal information be sent to another party for other uses unless the release of information is required by law.
- To receive timely access to care, including referrals to specialists when medically necessary without barriers.
- To choose a PCP and to change to another PCP.
- To choose a person to act on their behalf.
- To voice grievances or file appeals about Absolute Total Care decisions that affect their privacy, benefits, or the care provided.
- To make recommendations regarding Absolute Total Care's member rights and responsibilities policy.
- To file for a State Fair Hearing with SCDHHS.

- To make an advance directive, such as a living will.
- To receive information about Absolute Total Care, its benefits, its services, its practitioners, providers, member rights and responsibilities.
- To have a candid discussion about appropriate or medically necessary treatment options for their conditions, regardless of cost or benefit coverage.
- To get a second opinion from a qualified healthcare professional.
 - *You have the right to a second opinion about your care.*
 - *This means talking to a different provider about an issue to see what they have to say. The second provider is able to give you their point of view. This may help you decide if certain services or methods are best for you. If you want to hear another point of view, tell your PCP.*
 - *Choose an Absolute Total Care contracted provider to give you a second opinion. There is no charge to you. Your PCP or Member Services can help you find a provider. If you are unable to find a provider in Absolute Total Care's network, we will help you find a provider outside the network. There is no charge to you if you need a second opinion from a provider outside the network.*
 - *Any tests that are ordered for a second opinion must be given by a provider in Absolute Total Care's network. Your PCP will look at the second opinion and help you decide on a treatment plan that will work best for you.*

Member Responsibilities

Absolute Total Care members have the following responsibilities:

- To inform Absolute Total Care of the loss or theft of their ID card.
- To present their ID card when using healthcare services.
- To be familiar with Absolute Total Care procedures to the best of their ability.
- To call or contact Absolute Total Care to obtain information and have questions clarified.
- To provide information (to the extent possible) that Absolute Total Care and its practitioners and providers need in order to provide care.
- To follow the prescribed treatment (plans and instructions) for care that has been agreed upon with their practitioners/providers.
- Make every effort to keep a scheduled appointment or cancel an appointment in advance of when it is scheduled.
- To inform their provider on reasons they cannot follow the prescribed treatment of care recommended.
- To understand their health problems and participate in developing mutually agreed upon treatment goals to the degree possible.
- To access preventive care services.
- To follow the policies and procedures of the SCDHHS Medicaid Plan.
- To be honest with providers and treat them with respect and kindness.
- To get regular medical care from their PCP before seeing a specialist.
- To follow the steps of the appeal process.
- To notify SCDHHS, Absolute Total Care and your providers of any changes that may affect their membership, healthcare needs or access to benefits. Some examples may include:
 - *If they have a baby.*
 - *If their address changes.*
 - *If their telephone number changes.*

- *If they or one of their children are covered by another health plan.*
- *If they have a special medical concern.*
- *If their family size changes.*
- To keep all their scheduled appointments, be on time for those appointments, and cancel 24 hours in advance if they cannot keep an appointment.

Member Grievances

A **grievance** is an expression of dissatisfaction about any matter other than an “adverse benefit determination” such as:

- Wait time to see a doctor;
- Rudeness of a provider or office staff; or
- Unclean facilities.

Grievances may be filed either orally or in writing with Absolute Total Care at any time. A member or a member’s authorized representative can file a grievance with Absolute Total Care. An authorized representative is a person or provider a member gives the right to act on their behalf.

A member can give permission for a person or a provider to act on their behalf in writing by completing and submitting the Appointment of Authorized Representative Form found on our website at absolutetotalcare.com.

If needed, Absolute Total Care will assist members in filing a grievance. This includes providing assistance with accessing auxiliary aids and services upon request, such as providing interpreter services and hearing impaired services, if needed, at no cost to the member. Absolute Total Care cannot and will not treat members differently because they have filed a grievance and their benefits will not be affected.

To file a grievance, members can do one of the following:

- Call Member Services at 1-866-433-6041.
- Mail, email, or fax a completed Grievance Form or written letter telling us why they are not satisfied. Obtain a Grievance Form from our website at absolutetotalcare.com or by calling Member Services. Information should include:
 - Member’s first and last name;
 - Member’s Absolute Total Care member ID number;
 - Member’s address and telephone number; and
 - The reason for the grievance.

Mail: Absolute Total Care
Grievance and Appeals Coordinator
1441 Main Street Suite 900
Columbia, SC 29201
Fax: 1-866-918-4457

Email: SC_Appeals_And_Grievs@centene.com

- Members can present their evidence in person at the address above

Absolute Total Care will send a letter to the member confirming the receipt of the grievance within **five calendar days**. We will try to make a decision right away. If not, we will send a written decision within **90**

calendar days from receipt of the grievance. Absolute Total Care may extend the time frame to resolve the grievance up to **14 calendar days** if the member or the member's authorized representative requests additional time or Absolute Total Care can demonstrate that there is a need for additional information that is in the member's best interest. If the time frame is extended, Absolute Total Care will make a reasonable effort to give the member prompt oral notice of the delay. Absolute Total Care will give the member written notification within **two calendar days**, including the reason for the additional time to resolve the issue as well as information on their right to file a grievance if they disagree with the decision.

All clinically-urgent grievances will be determined and reviewed by a medical director and resolved within 72 hours from receipt by Absolute Total Care.

If a member is not satisfied with the first decision of a grievance, the member can request a second review of the grievance within **30 calendar days** from the receipt of the notice of the original decision. Absolute Total Care will review the grievance again. The second grievance review will be completed by someone who did not make the decision on the first grievance review. After the first and second review of the grievance have been completed, the member does not have the right to file a State Fair Hearing.

Medical Appeals

An appeal is the request for review of an "action," as adverse benefit determination is defined in 42.C.F.R. § 438.400, or a request to change a previous decision made by Absolute Total Care. NCQA refers to all requests to reverse a decision as appeals.

An adverse benefit determination is defined as:

- The denial or limited authorization of a requested service, including determinations based on the type or level of service, requirements for medical necessity, appropriateness, setting, or effectiveness of a covered benefit.
- The reduction, suspension, or termination of a previously authorized service.
- The denial, in whole or in part, of payment for a service.
- The failure to provide services in a timely manner, as defined by the state.
- The failure of an MCO, PIHP, or PAHP to act within the time frames provided in § 438.408(b)(1) and (2) regarding the standard resolution of grievances and appeals.
- For a resident of a rural area with only one MCO, the denial of an enrollee's request to exercise his or her right, under § 438.52(b)(2)(ii), to obtain services outside the network.
- The denial of an enrollee's request to dispute a financial liability, including cost-sharing, copayments, premiums, deductibles, coinsurance, and other enrollee financial liabilities.

An appeal may be filed within **60 calendar days** from the date on the Adverse Benefit Determination Notice. The Adverse Benefit Determination Notice will explain the action Absolute Total Care has taken, explain the appeals process, and include a copy of the Appeal Form. Information on the appeals process and a copy of the Appeal Form can also be found on our website at absolutetotalcare.com. A member or a member's authorized representative can file an appeal with Absolute Total Care. An authorized representative is a person or provider a member gives the right to act on their behalf. A member can give permission for a person or a provider to act on their behalf in writing or by completing the

Appointment of Authorized Representative Form found on our website at absolutetotalcare.com. Requests for an appeal that are received without the member consent cannot be processed.

If needed, Absolute Total Care will assist members in filing an appeal. This includes providing assistance with accessing auxiliary aids and services upon request, including interpreter services and hearing impaired services, if needed, at no cost to the member. Absolute Total Care cannot and will not treat members differently because they have filed an appeal and their benefits will not be affected.

An appeal may be requested in writing or orally, however oral requests for appeals within the standard time frame must be confirmed by the member in writing within **14 calendar days** of the date of the oral request, unless the member or the member's authorized representative requests expedited resolution.

To file an appeal do one of the following:

- Call Member Services at 1-866-433-6041.
- Mail, email, or fax a completed Appeal Form or written letter about the appeal. Obtain an Appeal Form from our website at absolutetotalcare.com or by calling Member Services. A copy of the Appeal Form is also included with the Adverse Benefit Determination Notice. Information should include:
 - Member's first and last name;
 - Member's Absolute Total Care member ID number;
 - Member's address and telephone number; and
 - The reason for the appeal.

Mail: Absolute Total Care
Grievance and Appeals Coordinator
1441 Main Street Suite 900
Columbia, SC 29201
Fax: 1-866-918-4457

Email: SC_Appeals_And_Grievs@centene.com

- Members can present their evidence in person at the address above, in writing, or by telephone. For a standard appeal a member's written request confirming the appeal must also be sent to Absolute Total Care within **14 calendar days**. An expedited appeal does not require written confirmation.

Absolute Total Care will send a letter letting the member know that we received the appeal. Members also have the right to present evidence and testimony and make legal and factual arguments regarding their appeal in person, in writing, or by telephone. Members also have the right to receive, at no charge and upon oral or written request, any evidence and documents regarding their appeal or review in person at Absolute Total Care's office address listed above.

There are two kinds of member appeals.

Standard Appeal

Absolute Total Care will provide a written decision within **30 calendar days** from the date the request was received.

Expedited Appeal

If a decision on an appeal is required immediately due to the member's physical or mental health needs, or that could seriously jeopardize the member's life or ability to attain, maintain, or regain maximum function, and which cannot wait with the standard resolution time, an expedited appeal may be requested. Absolute Total Care's decision on the expedited resolution will be provided within **72 hours** of the receipt of the request. **An expedited appeal does not require written confirmation.**

If the request for an expedited appeal is denied, Absolute Total Care will make efforts to contact the member and provider promptly by telephone. In addition, the member and provider will be sent a written notice within **two calendar days**. Absolute Total Care will follow the standard appeal time frame and provide a written decision within **30 calendar days** from the original appeal request.

Extension of an Appeal

Absolute Total Care may extend the time frame to resolve a standard or an expedited appeal up to **14 calendar days** if the member or the member's authorized representative request an extension, or Absolute Total Care can demonstrate that there is a need for additional information that is in the member's best interest. If the time frame is extended, Absolute Total Care will make a reasonable effort to give the member prompt oral notice of the delay. Absolute Total Care will give the member written notification within **two calendar days**, including the reason for the additional time to resolve the issue as well as information on their right to file a grievance if they disagree with the decision.

The appeal will be reviewed and a final decision will be made by a medical director or appropriately licensed clinical peer who has the appropriate clinical expertise as determined by the state in treating the member's condition, who was not involved in the prior decision and did not report to the original decision-maker.

Absolute Total Care will not take punitive action against a provider who requests an expedited resolution or supports a member's appeal request.

Absolute Total Care shall retain grievance and appeal records and reports for a period of at least 10 years from the date the appeal or grievance has been resolved. If any litigation, claim negotiation, audit or other action involving the documents or records has been started before the expiration of the 10-year period, the records shall be retained until the completion of the action and resolution of issues which arise from it or until the end of the regular 10-year period, whichever is later.

Member Rights to a State Fair Hearing

If the member is not satisfied with the final appeal decision, the member or the member's authorized representative may file an appeal directly to SCDHHS Division of Appeals and Hearings. The request for a State Fair Hearing must be made within **120 calendar days** from the date on the Adverse Benefit Determination Notice.

Request for a State Fair Hearing must be in writing and sent to:

South Carolina Department of Health and Human Services
Division of Appeals and Hearings (Suite 901)
P.O. Box 8206

Columbia, SC 29202-8206

Telephone: 1-803-898-2600

Continuation of Benefits

Absolute Total Care members may continue receiving services or items until a decision is made about his or her appeal or State Fair Hearing process if the member was receiving ongoing services that were suspended, reduced, or terminated. To ensure continuation of currently authorized services the member or the member's authorized representative must file an appeal and request for services within **10 calendar days** from the date on the Adverse Benefit Determination Notice, with the exception that a provider cannot request continuation of services for the member.

Members may be required to pay the costs of the services if the final appeal or State Fair Hearing decision is adverse to the member.

Absolute Total Care will continue the member's benefits if the following conditions are met:

- The member or the member's authorized representative files the appeal timely;
- The action involves the termination, suspension or reduction of a previously authorized course of treatment;
- The services were ordered by an authorized provider;
- The original period covered by the original authorization has not expired; and
- The member requested extension of benefits timely.

If Absolute Total Care continues or reinstates the care at the member request while the appeal is pending, the care must be continued until one of the following occurs:

- The member or the member's authorized representative withdraws the appeal request;
- Ten calendar days pass after the date on Absolute Total Care's Adverse Benefit Determination Notice providing the resolution of the appeal, unless the member, within the 10-day time frame, has requested a State Fair Hearing with continuation of benefits until a State Fair Hearing decision is reached;
- A State Fair Hearing officer issues a decision adverse to the member; or
- The time period or service limits of a previously authorized service has been met.

Assistance and Contacting Absolute Total Care

Absolute Total Care's Grievance and Appeals Coordinator is available to assist members who need help in filing a grievance or request for appeal or in completing any element in the grievance or appeal process. Members may seek assistance or initiate a grievance or request for appeal by calling 1-866-433-6041 (TTY: 711).

Appointment of Authorized Representative

The MCO contract allows for a provider or another person to act on behalf of the member with the **member's written consent**. The authorized representative can file a grievance or an appeal or request a State Fair Hearing, with the exception that a provider cannot request continuation of benefits. A

member can give written consent for a provider, another person, or an attorney to act on their behalf by completing and submitting the Appointment of Authorized Representative Form found on our website at absolutetotalcare.com. A copy of the completed Authorized Representative Form will need to be attached when an authorized provider or person files a grievance, an appeal, or requests a State Fair Hearing on behalf of a member. Requests that are received without the member's consent cannot be processed.

Ombudsman

The member has the right to be represented in the appeal process by anyone they choose, including an attorney, but representation is not required. The state of South Carolina can provide representation through its health insurance ombudsman office. To contact the service, call 803-734-5049, or mail the South Carolina Office of Ombudsman, Wade Hampton Building, 1205 Pendleton Street, Columbia, SC 29201.

Special Services to Assist With Members

Absolute Total Care has designed its programs and trained its staff to ensure that each member's cultural needs are considered in carrying out Absolute Total Care operations. Providers should remain cognizant of the diverse Absolute Total Care population. Members' needs may vary depending on their gender, ethnicity, age, and beliefs. We ask that you recognize these needs in serving your patients. Absolute Total Care is always available to assist your office in providing the best care possible to the members.

Interpreter/Translation Services

Absolute Total Care is committed to ensuring that staff and subcontractors are educated about, remain aware of, and are sensitive to the linguistic needs and cultural differences of its members. In order to meet this need, Absolute Total Care is committed to the following:

- Having individuals available who are trained professional interpreters for Spanish and American Sign Language, and who will be available on site or via telephone to assist providers with discussing technical, medical, or treatment information with members as needed.
- Providing Language Line services that will be available 24 hours a day, seven days a week in 140 languages to assist providers and members in communicating with each other when there are no other translators available for the language.
- In-person interpreter services are made available when Absolute Total Care is notified in advance of the member's scheduled appointment in order to allow for a more positive encounter between the member and provider; telephonic services are available for those encounters involving urgent/emergent situations, as well as non-urgent/emergent appointments as requested.
- Providing TTY access for members who are hearing impaired through 711.
- Absolute Total Care medical advice line, nurse advice line, provider 24-hour access, seven days a week for interpretation of Spanish or the coordination of non-English/Spanish needs via the Language Line.
- Providing or making available Member Services and health education materials in alternative formats as needed to meet the needs of the members, such as audio tapes or language translation; all alternative methods must be requested by the member or designee.

Providers must call Member Services at 1-866-433-6041 if interpreter services are needed. Please have the member's ID number, date/time service is requested, and any other documentation that would assist in scheduling interpreter services.

Covered Pharmacy Services

Prescription drug benefits are managed through Absolute Total Care and are administered by Absolute Total Care's pharmacy benefit manager, Envolve Pharmacy Solutions. Absolute Total Care uses a PDL. This is a list of prescription drugs approved by Absolute Total Care for use by our members. All generic drugs and certain brand-name drugs listed in the PDL are covered. Some drugs, even though they are listed on the PDL, may have special limitations, such as quantity limits and age restrictions. Others may require the member to try and fail other preferred medications first. Non-PDL drugs may be requested through the prior authorization process. Some drugs are excluded from the pharmacy benefits, such as those for weight loss, infertility, and cosmetic purposes. The PDL is available to providers on our website at absolutetotalcare.com. Most drugs are allowed up to a 31-day supply limit per prescription filled, new or refilled.

Pharmacy Policy

Absolute Total Care's pharmacy benefit provides access to a broad range of approved medications using a PDL. The PDL does not:

- Require or prohibit the prescribing or dispensing of any medication;
- Substitute for the independent professional judgment of the physician or pharmacist; or
- Relieve the physician or pharmacist of any obligation to the patient or others.

The PDL is administered by the P&T Committee, composed of the medical director, pharmacy director, and community-based PCP and specialists. The primary function of the committee is to assist with the maintenance of Absolute Total Care's PDL and to establish programs and procedures for promoting positive patient outcomes in the Medicaid population. All PDL changes are reported to SCDHHS on a quarterly basis for review and approval.

Generic substitution is mandatory when a generic equivalent is available. All branded products that have three or more A-rated generic equivalents will be reimbursed at the maximum allowable cost. The mandatory generic substitution provision is waived for drugs that have a narrow therapeutic index.

Prior Authorization

The PDL attempts to provide appropriate and cost effective drug therapy to all participants covered by Absolute Total Care's pharmacy program. If a patient requires medication that does not appear on the PDL, the physician can make a request for a non-preferred medication. It is anticipated that such exceptions will be rare and that PDL medications will be appropriate to treat the vast majority of medical conditions. The P&T Committee or the Clinical Practitioners Advisory Committee established the prior authorization criteria. In order for a member to receive coverage for a medication requiring prior authorization, the physician or pharmacist must submit a Prior Authorization Request Form. **To ensure timely processing of requests, all relevant clinical information and previous drug history must be included and the form mailed, faxed, or telephoned to:**

Envolve Pharmacy Solutions
5 River Park Place East, Suite 210
Fresno, California 93720

Prior Authorization Telephone: 1-866-399-0928

Prior Authorization Fax: 1-866-399-0929

Website: www.envolverx.com

Prior authorization requests will be reviewed and notification of a decision will be made within **24 hours** from the time a complete request was received.

Over-the-Counter (OTC) Medications

Many OTC medications are available to our members on the PDL. OTC medications must be written on a valid prescription, by a licensed prescriber, in order to be filled by the pharmacy.

Injectables and Oral Anti-Cancer Drugs

Some injectable drugs and oral cancer drugs that can be self-administered by the patient or family member are listed in the PDL and are covered under the pharmacy benefit. The majority of self-administered injectable drugs, and several oral anti-cancer drugs, will require prior authorization from Absolute Total Care prior to dispensing. Please refer to the Biopharmaceutical Pharmacy Program Document found on our website at absolutetotalcare.com for instructions on how to get a prior authorization from Absolute Total Care's Pharmacy Department or call 1-866-433-6041.

72-Hour Emergency Supply Policy

State and federal law require that a pharmacy dispense a 72-hour emergency supply of medicine to any member awaiting prior authorization determination. The purpose is to avoid interruption of current therapy or delay in the initiation of therapy. All participating pharmacies are authorized to provide a 72-hour emergency supply of medication and will be reimbursed for the ingredient cost and dispensing fee of the 72-hour emergency supply of medication, whether or not the prior authorization request is ultimately approved or denied. If the pharmacy requires further assistance for any reason, they may call Envolve Pharmacy Solutions at 1-866-399-0928.

Continuity of Care/Transition of Care

The continuity of care process promotes the appropriate, safe, and effective transition of medications for new members on a prescription drug not on Absolute Total Care's PDL to a prescription drug on the PDL. Absolute Total Care will review the previous 90 days of claim history to determine if a member is on a non-formulary drug. The member will be allowed to fill the prescription for an additional 30 calendar days, up to 90 days, without requiring a prior authorization or disruption.

Exclusions

Most prescriptions are limited to a 31-day supply per fill. The following drug categories are not part of Absolute Total Care's PDL and are not covered regardless of circumstance:

- Weight control products (except lipase inhibitors);
- Investigational pharmaceuticals or products;

- Immunizing agents (except for influenza, pneumococcal, and hepatitis B vaccines);
- Pharmaceuticals identified by CMS as less than effective and identical, related, or similar drugs (DESI drugs);
- Injectable pharmaceuticals (except those listed in the PDL);
- Fertility products;
- Infusion supplies;
- Nutritional supplements;
- Pharmaceuticals used for cosmetic purposes or hair growth; and
- Erectile dysfunction products prescribed to treat impotencies.

Definitions

Excluded Services: Medicaid services not included in Absolute Total Care's benefits and reimbursed fee-for-service by the state.

Plan/Health Plan: The term "plan" means the same as "Absolute Total Care," "Managed Care Plan," or "HMO/MCO."

Home Health Services: Healthcare services delivered in a person's place of residence, excluding nursing homes and institutions, and include intermittent skilled nursing, home health aide, physical, occupational and speech therapy services, and physician-ordered supplies

Medical Network: An integrated delivery system of healthcare services, there can be multiple medical networks in a county
